- Public web-archive history exists since 2001.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Capital News is a Portuguese-language regional news portal covering Campo Grande and Mato Grosso do Sul, presenting current journalism across politics, public safety, daily life, sports, economy, health, education, culture, opinion, and local affairs; its apparent business model is digital publishing supported by advertising, sponsored content, and audience engagement.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents substantial, current editorial content under a coherent regional-news identity, with organized sections, article summaries, contact details, and copyright information. It contains no login form, sensitive form, wallet functionality, deceptive destination, phishing indicator, or brand-impersonation signal. Independent reputation checks were clean, supporting the conclusion that the site is a legitimate established publisher rather than an impersonation or scam operation.

- The homepage identifies the service as “Notícias de Campo Grande e MS - Capital News” and displays current local headlines across multiple editorial sections.
- The domain was registered on 2004-04-28 and is approximately 22.27 years old.
- The archive contains 5,000 snapshots spanning 2001–2026, covering 26 tracked years.

Regulatory Verification Notes

The site's visible editorial identity, contact information, copyright presentation, sustained publishing history, and clean external reputation support a credible operating profile. The supplied content does not show a licensing claim or registration number; for a news publisher, this is a transparency item for formal onboarding rather than evidence of deception. No adverse third-party broker association was identified.

- The homepage exposes “Sobre Nós,” “Expediente,” “Reportar News,” and “Informe Publicitário” navigation areas alongside contact and copyright information.
- The site is served from AS13335 (CLOUDFLARENET - Cloudflare, Inc., US).
- TLS is issued by WE1 at DV validation level and is valid through 2026-09-16 18:12 UTC.

What to Verify Next

For formal institutional engagement, confirm the publisher's legal identity and any applicable media, advertising, or commercial registrations through independent records, and validate commercial contacts using an independently sourced channel.

- The site provides dedicated publisher, editorial, reporting, and advertising navigation areas.
- Its business presentation is consistent with regional journalism, advertising, sponsored content, and audience engagement rather than financial solicitation or credential collection.

Summary Verdict

The website presents a high-confidence legitimate and established trust posture. Normal interaction, including account login where offered and standard site use, is appropriate.

Infrastructure Integrity

Cloudflare CDN/WAF protection fronts all observed addresses, which are CDN edge servers on AS13335; the origin server IP was not observable in this analysis. This reduces direct origin exposure and is a mitigating infrastructure characteristic, not proof of legitimacy by itself.

Closing Assessment

Standard browsing and ordinary site interaction are appropriate; routine organizational due diligence remains proportionate for any formal commercial relationship.

Written analysis generated 2026-08-01 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of capitalnews.com.br.

- The request stayed on capitalnews.com.br. It was not redirected to another domain. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The registration is paid up to 2028-04-28. CLEAR
- The earliest public archive of this site is from 2001-04-28. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about capitalnews.com.br at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
