Overview

Carta-natal.es is a Spanish-language astrology and informational utility website presenting free birth-chart calculations, astrology resources, daily astronomical information, and optional advertising-supported and subscription services.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents a coherent astrology utility rather than a deceptive financial, investment, or impersonation offer: visitors can calculate natal charts, view planetary information, and access related resources. The site has no detected phishing or brand-impersonation indicators, no sensitive login form, no malicious or suspicious reputation findings, and an established public history consistent with continued operation.

- The homepage describes free natal-chart calculations and astrology resources, with no detected red-flag content.
- The site has 388 archive snapshots spanning 2008–2026, tracked across 19 years.
- The domain is registered 17.648186173853524 years ago.
- The domain appears in the top 1 million of the global traffic ranking, with a clean evaluated reputation.

Regulatory Verification Notes

The legal, privacy, cookie, and contact links provide a conventional disclosure framework for an informational website. Its stated model—free tools supported by advertising, consent-based data monetization, and an optional €2-per-month subscription—is commercially ordinary for this category. No specific professional or financial license is claimed; this is a transparency point for applicable consumer or business-registration requirements, not evidence of deception. A third-party broker dataset produced no match.

- The homepage links to legal notice, privacy policy, cookie policy, privacy settings, account administration, and contact functions.
- The site's hosting is identified as AS13335, Cloudflare, Inc., US.
- TLS is issued by WE1 at DV validation level and is valid through 2026-10-19.
- The page contains one astrology-calculation form and no sensitive form destination.

What to Verify Next

For any paid subscription, confirm the billing terms and cancellation process on the legal and account pages. Where local rules require registration or consumer disclosures for paid digital services, confirm the applicable status through the relevant official registry and independently validate the published contact channels.

- The homepage identifies the service as free while presenting optional subscription and advertising-supported functionality.

- The legal and privacy links are available from the homepage.
- The account area provides subscription-related administration functions.

Summary Verdict

The website presents as a legitimate, established, and trustworthy informational service with a coherent purpose, sustained operating history, and no observed contradiction or abuse pattern. Normal interaction, including account login and standard use, is appropriate.

Infrastructure Integrity

The website is protected by Cloudflare CDN/WAF infrastructure, and all observed addresses are CDN edge servers rather than exposed origin candidates. This reduces direct origin exposure and provides a meaningful protective layer, although infrastructure protection is a mitigating control rather than proof of legitimacy.

- Served from AS13335 (Cloudflare, Inc., US); four observed addresses were CDN edge addresses.
- TLS certificate issuer: WE1; validation: DV; valid to 2026-10-19.

Closing Assessment

Standard browsing, account use, and ordinary subscription activity are proportionate to the assessed posture, with normal attention to the service’s published terms and applicable consumer requirements.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about carta-natal.es at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
