Key findings

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- No flags from the reputation services TrustSniffer consulted at assessment time.
- The operator behind the site could not be independently connected to a real-world brand or person.

Full analysis

Overview

This website is a Brazilian editorial news and guidance portal covering personal finance, Caixa Tem loans, benefits, property, travel, automobiles, and general-interest topics. It presents itself as an educational publisher rather than a financial institution or lender, with an apparent advertising, affiliate, or content-monetization model.

Scam/Impersonation Risk

No contradictions, phishing indicators, brand impersonation, or confirmed blacklist findings were observed. The homepage contains no login or sensitive-data form, makes no direct financial-service promise, and explicitly distinguishes the publication from a lender or financial institution. Its content profile is consistent with an informational news portal, and the available external reputation checks returned no malicious or suspicious detections.

- The homepage presents editorial categories including Finance, Benefits, Property, Travel, Automobiles, and Miscellaneous.
- The homepage states that the site is educational and does not operate as a financial institution or creditor.
- The homepage contains no login form, sensitive form, hidden form, or wallet-connection mechanism.
- External reputation checks recorded zero malicious and zero suspicious detections, with no blacklist match.

Regulatory Verification Notes

The legal-navigation area includes “Quem Somos,” Contact, Privacy Policy, Terms of Use, Legal Notice, and Media Kit pages. The site does not claim a financial license or present a registration number, which is appropriate to assess as a transparency point because it describes itself as editorial rather than as a regulated provider. Any financial products discussed should therefore be understood as informational content unless a separately identified provider is independently verified. The domain and transport layer provide affirmative establishment signals, while the site’s authority footprint is comparatively limited.

- The homepage navigation links to About, Contact, Privacy Policy, Terms of Use, Legal Notice, and Media Kit pages.
- The domain was registered on 2018-11-12 and is approximately 7.73 years old.
- The site is served from AS47583, Hostinger International Limited, CY.
- TLS uses issuer YE2 with DV validation and is valid through 2026-09-19.

What to Verify Next

For any third-party loan, credit, or financial offer referenced in an article, independently confirm the provider's identity, licensing status, fees, and application domain through the relevant official registry or the provider's established offline channels. Contact details and editorial ownership can likewise be cross-checked using an independent route before relying on the site for a consequential business decision.

- Finance and Benefits pages discuss loans and credit-related subjects, including Caixa Tem lending.
- The Legal Notice and About pages provide the appropriate locations for checking the site's stated editorial role and disclosures.
- The Contact page provides the site's published communication route for independent confirmation.

Summary Verdict

The website presents as a legitimate, established informational publisher with a clean observed reputation and no material contradiction between its stated purpose and its page behavior. Normal interaction, including account login where applicable and standard use, is appropriate.

Infrastructure Integrity

The site resolves directly to four likely origin addresses rather than a detected CDN edge, and its hosting is associated with AS47583, Hostinger International Limited, in Ukraine. The site uses valid DV TLS issued by YE2 through 2026-09-19; this encrypted transport and identifiable hosting posture are mitigating infrastructure signals, although they do not independently establish legitimacy.

Closing Assessment

Standard browsing and ordinary interaction are appropriate; consequential financial decisions should remain based on independent confirmation of the specific provider or offer involved.

Written analysis generated 2026-08-03 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about cartaodecreditoguia.com.br at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
