Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2012.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

A Spanish-language arts and entertainment portal provides Mexico City theater listings, schedules, venue information, reviews, recommendations, cultural news, videos, discounts, and a newsletter, operating as an established editorial directory supported primarily by advertising.

Scam/Impersonation Risk

No identity contradictions, brand impersonation, phishing behavior, or other scam indicators were observed. The long-established domain, continuous historical presence, clean external reputation, and absence of sensitive or concealed forms strongly support the site's authenticity and continuity of purpose.

- Domain-registration records identify Eidos Comunicacion S.A. de C.V. as the owner; the domain was registered on 6 September 2011 and is 14.92 years old.
- Web archives contain 530 snapshots from 10 February 2012 through 26 July 2026, spanning 15 tracked years without evidence of suspicious repurposing.
- External reputation checks recorded no malicious or suspicious detections, no unsafe-browsing finding, no abuse reports, and no signature matches for the domain.
- The homepage contained no login form, hidden form, sensitive form, cloaking, suspicious inline script, wallet interaction, or clipboard-hijacking behavior.

Regulatory Verification Notes

The site presents an editorial theater-information service rather than a regulated financial or investment business. It makes no licensing claim, and the supplied pages contain no financial solicitation, cryptocurrency activity, or regulated-product offering that would ordinarily require financial authorization. Its registration through AKKY ONLINE SOLUTIONS, S.A. DE C.V., named corporate ownership, established traffic presence, and valid transport encryption provide affirmative identity and operational-integrity signals.

- Registration records name AKKY ONLINE SOLUTIONS, S.A. DE C.V. as registrar and show the registration valid through 6 September 2027.
- The site is served from AS14061 (DigitalOcean, LLC, US).
- The site's DV TLS certificate was issued by YE2 and is valid until 11 September 2026.
- The homepage describes theater-related editorial and directory content and makes no license, investment, brokerage, or token-related claim.

What to Verify Next

Any institutional engagement involving advertising, content syndication, discounts, or newsletter data should follow ordinary counterparty controls: confirm the contracting entity against corporate documentation, establish official contact channels independently, review the applicable commercial terms, and assess the privacy treatment for subscriber information. These are proportionate procurement and data-governance checks, not responses to detected fraud.

- The homepage states that the service is primarily advertising-supported and that productions are not charged for listings or reviews.
- The homepage promotes discounts and newsletter participation, creating limited commercial and subscriber-data touchpoints suitable for routine terms and privacy review.
- The site has an established global usage footprint, ranking 174,842 in the measured traffic index.
- The homepage presents substantive content across eight identified topic areas, consistent with an active editorial operation.

Summary Verdict

The website is legitimate, established, and trustworthy, with strong convergence across identity, historical continuity, reputation, content quality, and observed behavior. No contradictory risk signals were identified, and normal interaction—including account login and standard use—is appropriate.

Infrastructure Integrity

The site uses a CDN/WAF configuration whose observed address was an edge server rather than a confirmed origin. This architecture reduces direct origin exposure and provides a meaningful security mitigation, although protective infrastructure is not, by itself, proof of legitimacy.

Closing Assessment

Prospective users may engage with the site normally, while organizations entering commercial or data-sharing arrangements should apply their standard counterparty, contractual, and privacy-review procedures.

Written analysis generated 2026-08-04 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about carteleradeteatro.mx at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
