Full analysis

Overview

This is the website of Calvary Chapel Bacolod, presenting a local church fellowship, a children's home, a Christian school, ministry information, contact details, and donation opportunities. Its apparent purpose is to support religious activities, community services, education, and charitable assistance through donations and community support.

Scam/Impersonation Risk

No phishing, impersonation, malicious-content, or identity-contradiction signals were observed. The homepage presents a coherent church and charity purpose, describing Calvary Chapel Bacolod, Calvary Kids, and Calvary Chapel Christian School rather than an investment, trading, or high-pressure commercial service. The site's stated donation model creates an ordinary need for payment-channel diligence, but the available evidence does not indicate deceptive solicitation. A separate external signal recorded nine abuse reports against a shared Squarespace infrastructure IP; because the attribution is to shared provider infrastructure rather than specifically to the website, it is a limited contextual signal and does not establish site-level abuse.

EVIDENCE

- The homepage identifies the site as Calvary Chapel Bacolod and describes church, children's-home, and Christian-school activities.
- The site behavior showed no login form, hidden form, sensitive form, wallet connection, clipboard activity, or suspicious script.
- The hosting-IP record contains 9 abuse reports attributed to shared Squarespace infrastructure, with confidence score 14 and usage type "Content Delivery Network."
- Domain registration: 2007-09-27; age 18.91 years; registrar GoDaddy.com, LLC. Archive records show 55 snapshots spanning 2007–2025, covering 19 years.

Regulatory Verification Notes

The About Us content names Pastor Joe Rosmarino as senior pastor and identifies directors and assistant pastors. It also states that the children's home is licensed by DSWD Philippines and that the school is recognized by DepEd Philippines; these are on-site representations rather than independently verified regulatory findings. The available pages do not provide an independently verified legal-entity record or license number for the operator, so the site's charitable and educational status should be treated as apparent rather than proven. No matching third-party broker record was identified, although that contextual result is not a licensing or regulatory determination.

EVIDENCE

- The About Us page identifies the church leadership and describes the children's home as a ministry for children in need.
- The About Us page states that the children's home is "Licensed by DSWD Philippines" and the school is "Recognized by Dep Ed Philippines."
- The site is served from AS53831, SQUARESPACE - Squarespace, Inc., US.
- Transport encryption uses a DV TLS certificate issued by YR2, valid to 2026-10-23.

What to Verify Next

Before making a material donation or providing credentials, an independent check should confirm the ministry's legal identity, the DSWD and DepEd status described on the site, and the beneficiary or payment destination. Payment should be made only through a channel whose recipient name and dispute or refund protections are clear, and official contact details should be confirmed through an independently obtained source rather than relying solely on the website.

EVIDENCE

- The About Us page provides the ministry names, leadership names, and stated government recognitions for independent confirmation.
- The Donate and Contact Us pages identify the intended support and communication pathways to be checked before payment.
- The site is an informational, non-profit page with no sensitive submission form detected during observed interaction.

Summary Verdict

Available evidence is consistent with an established, apparently legitimate website and supports a high-trust, low-risk posture. The conclusion concerns the website’s observed trust characteristics; it does not independently verify the real-world operator identity or prove the on-site regulatory representations.

Infrastructure Integrity

The site resolves to Squarespace infrastructure in the United States, with AS53831 identified and four likely origin addresses rather than separately identified edge addresses. Squarespace hosting and the valid TLS deployment are mitigating infrastructure signals, but they are not proof of the operator’s identity or legitimacy.

Closing Assessment

Normal informational use is proportionate; before credentials or donations are submitted, ordinary independent identity, recipient, and payment-protection checks should be completed.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Signals weighed against the site

- AbuseIPDB: 9 reports on hosting IP 198.49.23.144 (Squarespace, Inc., Content Delivery Network), 14% confidence. The reports are attributed to shared infrastructure, not specifically to this website.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about ccbacolod.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
