

Is cebraspe.org.br legit? TrustSniffer's high-trust assessment: 90/100

cebraspe.org.br

Verdict

90

OUT OF 100

HIGH TRUST

cebraspe.org.br appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-13 by automated analysis. Classification confidence 75%.

What this site appears to be

Official institutional website content for Cebbraspe (Brazilian center for research in assessment and selection). Provides sections for institutional information, services (concursos, certificações, avaliações), news, contact details and accessibility tools. No financial solicitation or sensitive-data collection visible in the provided DOM.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2018.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Cebraspe's website is an institutional portal for a Brazilian assessment and selection organization, presenting information about public examinations, certifications, educational and policy evaluations, research, news, organizational matters, accessibility, and contact services rather than a direct-to-consumer financial or retail business.

Scam/Impersonation Risk

No contradictions were observed. The institutional content, including “Sobre nós,” “Quem é quem,” “O que fazemos,” “Notícias,” “Transparência,” and “Fale com o Cebraspe,” is coherent with the stated organizational purpose and contains no observed phishing, brand-impersonation, financial-solicitation, credential-harvesting, or sensitive-data collection indicators. External reputation checks were clean, with no malicious or suspicious detections and no matching broker warning; these are supporting signals rather than proof of operator identity. The available evidence therefore supports an apparently legitimate, low-risk website, while the real-world operator connection remains likely rather than independently verified.

EVIDENCE

- The homepage presents Cebraspe as an organization focused on evaluations and selections, with institutional, examination, certification, assessment, news, contact, and accessibility sections.
- The site's forms analysis found no forms, no login form, no hidden forms, and no sensitive-data collection in the observed page content.
- The domain was registered on 2013-06-19 and is 13.16 years old.
- Archive records contain 632 snapshots from 2018-03-30 through 2026-07-15, covering 9 years.

Regulatory Verification Notes

The site's apparent business model is institutional and service-based, involving examinations, certifications, assessments, public-sector activities, and contracted organizational services. No financial solicitation was visible, and the available pages do not state a financial license or registration number; this is a disclosure point for context-specific verification, not evidence of a scam. The site identifies organizational areas such as institutional information, personnel, transparency, justice, suppliers, and contracting, but the available evidence does not independently prove the legal operator or establish a third-party regulatory status.

EVIDENCE

- The “O que fazemos” and “Como nos contratar” sections describe concursos, certificações, avaliações, research, and institutional contracting services.
- The “Institucional,” “Sobre nós,” “Quem é quem,” “Transparência,” and “Justiça” sections provide organizational and governance-related content.
- The site uses an OV TLS certificate issued by Thawte TLS RSA CA G1 to CEBRASPE, valid through 2027-02-21.

What to Verify Next

Before credential or payment interactions, an organization should independently confirm that the contracting entity and applicable service terms correspond to the intended Cebbraspe engagement. Where a specific examination, certification, or paid service is involved, the relevant public authority, procurement record, or institutional contact channel should be checked through an independently obtained source. Return, cancellation, dispute, and payment-protection terms should also be reviewed where a transaction is proposed.

EVIDENCE

- The site provides dedicated “Fale com o Cebbraspe,” “Fornecedores,” “Como nos contratar,” and “Perguntas frequentes” sections that can be compared with independently sourced institutional information.
- The observed page contains no sensitive form or untrusted form destination, so any later request for credentials or payment should be assessed in the context of the specific service and transaction.
- A LinkedIn social-domain signal provides limited external identity context but does not independently verify the legal operator.

Summary Verdict

The website presents a **high-trust, low-risk posture** and is apparently legitimate based on the convergence of coherent institutional content, sustained domain history, clean external reputation, stable technical behavior, and valid organizationally identified TLS. No scam, phishing, impersonation, or identity-conflict indicators were observed, although the operator’s real-world identity is not independently proven by the available evidence.

Infrastructure Integrity

The site is directly hosted rather than delivered through a detected CDN edge, with a resolved Brazilian hosting environment attributable to the organization identified in the technical records. This provides a clear hosting path, although direct hosting is only a mitigating infrastructure observation and is not, by itself, proof of legitimacy.

EVIDENCE

- Hosted on AS263358, “Centro B. de P. em A. e S. e de P de Eventos, BR,” in Brazil.
- Infrastructure resolution identified 1 unique IP, 0 CDN edge IPs, and 1 likely origin candidate.

Closing Assessment

Normal informational use is proportionate to the evidence; for credentials or payments, ordinary independent checks of the counterparty, service terms, and available payment protections should be completed before proceeding.

Written analysis generated 2026-08-13 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	73/100
Identity verification confidence	74%

- Trusted social count=1

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of cebraspe.org.br.

- The request stayed on cebraspe.org.br. It was not redirected to another domain. CLEAR
- DNS for this domain is served by 236.5, across 2 name servers. NOTED
- The registration is paid up to 2035-06-19. CLEAR
- The earliest public archive of this site is from 2018-03-30. CLEAR
- It is hosted on AS263358, from a server in BR. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about cebraspe.org.br at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
