## The page as captured

https://centerislandcontracting.com/

What centerislandcontracting.com served when TrustSniffer captured it on 2026-08-21. The page may look different now.

## Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2008.
- No flags from the reputation services TrustSniffer consulted at assessment time.

## Full analysis

### Overview

This website is the public-facing site for Center Island Contracting, a Long Island general contractor presenting residential construction, remodeling, design–build, home additions, and consultation services for prospective clients.

### Scam/Impersonation Risk

No contradictions were observed. The site's presentation is internally consistent with a local construction-services business, and the available external reputation checks identified no malicious, phishing, impersonation, or blacklist findings. Limited implementation anomalies were observed during behavioral testing, including suspicious inline scripts and console errors, but they were not accompanied by hidden forms, external password collection, wallet activity, clipboard interception, or cloaking; these signals therefore indicate website-quality or implementation issues rather than evidence of a scam. The real-world operator remains likely rather than independently verified.

#### EVIDENCE

- The homepage identifies Center Island Contracting and presents a local-business contractor model with residential construction and remodeling services.
- Behavioral testing recorded 2 suspicious inline scripts and 16 console errors, with 0 hidden forms, 0 external password forms, 0 wallet-connect runs, 0 wallet-drainer runs, and no cloaking detected.
- The domain was registered on 2008-01-02 and is 18.65 years old.
- Historical records show a first-seen date of 2008-06-30, a last-seen date of 2026-06-06, and 19 years tracked.

#### Regulatory Verification Notes

The site's substantive content supports an established commercial service model: it presents design–build services, custom home construction, kitchen and bath remodeling, additions, new construction, a project portfolio, pricing guides, awards and recognition, financing options, an About section, team information, and consultation scheduling. It also displays a claimed Google rating of 4.6 and links to several established social platforms. The supplied content does not show a licensing authority or registration number; this is a verification and disclosure gap, not evidence of fraudulent activity. No relevant third-party broker match was identified, although that contextual signal is not a licensing determination. The domain's registration through GoDaddy and valid transport encryption provide additional infrastructure continuity, while the certificate is domain-validated rather than an organizational identity assertion.

#### EVIDENCE

- The homepage and service pages describe design–build, remodeling, additions, new construction, portfolio, pricing-guide, and consultation offerings.
- The About, Team, Awards & Recognition, and social-link sections provide business-context and public-presence information; no licensing authority or registration number is presented in the supplied site content.
- Registered through GoDaddy.com, LLC on 2008-01-02, with an expiration date of 2027-01-02.
- Served from AS54113 (FASTLY - Fastly, Inc., US); TLS certificate issued by YR2 at DV validation level, valid to 2026-11-08T19:02:31+00:00.

#### What to Verify Next

Before entering credentials or making a payment, an independent party should confirm the contracting entity and its current business contact details through an offline or independently sourced channel. For a project requiring regulated trade or contractor authorization, the relevant local registry should be checked for the applicable license or registration. The proposed contract should also be reviewed for scope, deposits, financing terms, cancellation rights, warranties, and payment protections, with any consultation or payment destination confirmed against independently obtained contact details.

## EVIDENCE

- The site provides dedicated Contact Us and Schedule a Consultation pages for comparison against independently sourced contact information.
- Pricing Guides, Financing Options, and project-service pages identify the materials that should be reconciled with a written proposal and contract.
- The About Us, Team, Locations, and Awards & Recognition pages provide the site-based identity and operating-context claims requiring independent confirmation.

## Summary Verdict

Available evidence is consistent with an established, apparently legitimate website and supports a high-trust, low-risk posture. No scam or impersonation contradiction was identified, but the connection between the website and a specific real-world operator has not been independently proven.

## Infrastructure Integrity

The site is protected by a Fastly CDN/WAF architecture. The observed address, 151.101.130.159, is a CDN edge address, and no origin-server candidate was exposed; this reduces direct origin exposure but is a mitigating technical control rather than proof of legitimacy.

## Closing Assessment

Normal browsing and consultation activity is proportionate to the assessed posture, while independent merchant-identity, contract, return or cancellation, and payment-protection checks should be completed before credential submission or payment.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

## What the analysis found

No rule findings contributed to this verdict.

## Identity verification

|                                  |        |
|----------------------------------|--------|
| Status                           | LIKELY |
| Identity score                   | 80/100 |
| Identity verification confidence | 40%    |

- Trusted social count=4

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

## What TrustSniffer observed

First-party facts recorded during the assessment of centerislandcontracting.com.

- The request stayed on centerislandcontracting.com. It was not redirected to another domain. CLEAR
- Registration is published under GoDaddy.com, LLC. CLEAR
- DNS for this domain is served by domaincontrol.com, across 2 name servers. NOTED

- The registration is paid up to 2027-01-02. NOTED
- The earliest public archive of this site is from 2008-06-30. CLEAR
- It is hosted on FASTLY, from a server in US. NOTED

### About this assessment

A trust score summarises the evidence TrustSniffer could collect about centerislandcontracting.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
