Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 1998.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

This website presents itself as the official site of Russian commercial bank Center-invest, offering retail and business banking services—including loans, mortgages, deposits, cards, transfers, online banking, currency exchange, offices, and ATMs—for customer account and financial-service access.

Scam/Impersonation Risk

No contradictions were observed. The site's identity is consistent with a long-running banking presence, and external reputation checks found no malicious, suspicious, phishing, or impersonation indicators. The historical record supports continuity rather than suspicious repurposing.

- Domain registration record: registered 1997-10-20, approximately 28.8 years old; registrar RU-CENTER-RU.
- Web archive: 857 snapshots spanning 1998–2026, covering 29 tracked years.
- External reputation checks: zero malicious detections, zero suspicious detections, and no blacklist or phishing hit.

Regulatory Verification Notes

The homepage and associated information pages identify Center-invest as a commercial bank and present general licensing, regulatory, customer-support, office, and headquarters information. The supplied evidence does not establish a specifically verified license number or licensing authority, so formal regulatory confirmation remains a transparency and verification matter rather than evidence of deception. No matching third-party broker warning was identified.

- Banking pages: retail and business services, regulatory disclosures, support numbers, office information, and a physical headquarters address.
- Hosting: AS208177, operated by AS-CENTRINVEST – Public Joint-stock company commercial Bank Center-invest, RU.
- Transport security: EV TLS certificate issued by GlobalSign GCC R3 EV TLS CA 2025, valid through 2027-01-30.

What to Verify Next

Confirm the institution's current authorization and license details through the relevant official financial-services registry, and independently validate the published support and account-access channels before initiating material transactions.

- Legal and regulatory pages: general license reference and regulatory disclosures are present.
- Contact and office pages: customer-support numbers, office listings, and headquarters information are provided.

Summary Verdict

The website has an established and legitimate trust posture, with consistent institutional identity, sustained public presence, clean external reputation, and coherent banking content. Normal interaction, including account login and standard use, is appropriate.

Infrastructure Integrity

The site is served directly from AS208177, operated by Center-invest, with one identified likely origin IP and no CDN or WAF detected. This provides clear infrastructure attribution; the valid EV certificate further supports transport integrity, while infrastructure alone is not proof of legitimacy.

Closing Assessment

Normal banking use is appropriate, subject to standard financial-institution checks for material transactions and regulatory requirements.

Written analysis generated 2026-08-01 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about centrinvest.ru at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
