

Is cepv.fr legit? TrustSniffer's high-trust assessment: 100/100

cepv.fr

Verdict

100

OUT OF 100

HIGH TRUST

cepv.fr appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 50%.

What this site appears to be

Informational website for CEPV (Club d'Entreprises du Pays de Vaison/Ventoux) describing membership benefits, events, values, and contact details. Contains calls-to-action to join the club and an email contact; no financial investment products or credential-harvesting forms visible.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2017.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

CEPV is an informational website for the Club d'Entreprises du Pays de Vaison/Ventoux, presenting membership benefits, professional-development activities, networking events, member companies, and contact or joining pathways. Its apparent business model is a local business association sustained through membership participation, events, and promotion of member organizations rather than investment or custodial financial services.

Scam/Impersonation Risk

No contradictions were observed across the reviewed site and external signals: there was no indication of phishing, brand impersonation, malicious content, credential harvesting, or a confirmed blacklist listing. The homepage presents a coherent local-association purpose, with calls to join the club, attend activities, and engage with regional business networking. No login form, sensitive form, wallet connection, unusual external posting, or high-risk financial mechanism was observed. Available reputation checks found no malicious or suspicious detections, although coverage was partial.

EVIDENCE

- Homepage: describes CEPV as a local business club focused on cooperation, entrepreneurial development, member networking, and regional activity.
- Homepage and contact/join pathways: no credential-collection or sensitive transaction form was observed.
- Runtime behavior: two successful runs recorded zero external XHR activity, zero hidden forms, zero wallet-provider or wallet-drainer activity, and no cloaking classification.
- External reputation telemetry: malicious detections 0, suspicious detections 0, and abuse reports 0; reputation coverage was partial.

Regulatory Verification Notes

The site's apparent activity is membership-based business association activity, not a financial investment service, and no financial licence claim or licence number is presented in the supplied page evidence. This is a disclosure and applicability point for independent confirmation, not evidence of deception. The organization's real-world operator identity remains unverified independently, so the site should be described as apparently legitimate and evidence-consistent rather than as identity-proven. No matching broker signal was returned in the available third-party context.

EVIDENCE

- Homepage: identifies CEPV as the "Club d'Entreprises du Pays de Vaison/Ventoux" and describes membership, events, masterclasses, and networking.
- Domain registration telemetry: registered 2015-10-21; age 10.84 years; registrar GANDI; expiry 2028-10-21.
- Hosting telemetry: served from AS50474, O2SWITCH - O2SWITCH SAS, France.
- Transport security: TLS certificate issued by YR1, validation level DV, valid to 2026-11-07.

What to Verify Next

Before credential or payment interactions, independently confirm the association's legal identity and current contact channels through an offline or separately sourced route. Confirm the applicable membership terms, fee arrangements, cancellation or return provisions, and payment protections; if a regulated service is later offered, confirm any claimed authorization directly with the relevant registry.

EVIDENCE

- Homepage: membership and "Adhérer" calls-to-action define the principal engagement route.
- Contact page pathway: contact details are provided for direct organizational communication.
- Page analysis: no sensitive form or untrusted form destination was observed, so any later payment or account workflow should be assessed separately at the point of use.

Summary Verdict

Available evidence supports a high-trust, low-risk posture consistent with an established, apparently legitimate website. The classification is strong, while independent attribution of the real-world operator remains unverified.

Infrastructure Integrity

The site is protected by a CDN/WAF layer, with four observed edge addresses—146.59.209.152, 2001:41d0:301::20, 2001:41d0:301::31, and 46.105.204.20—and one potential origin candidate. This layered delivery posture is a mitigating infrastructure signal, but it is not, by itself, proof of organizational legitimacy.

Closing Assessment

Ordinary informational use is proportionate to the observed posture; before submitting credentials or making payments, complete the independent organization, terms, and payment-protection checks described above.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of cepv.fr.

- The request stayed on cepv.fr. It was not redirected to another domain. CLEAR
- Registration is published under GANDI. CLEAR
- DNS for this domain is served by gandi.net, across 3 name servers. NOTED
- The registration is paid up to 2028-10-21. CLEAR
- The earliest public archive of this site is from 2017-04-18. CLEAR
- It is hosted on O2SWITCH, from a server in FR. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about cepv.fr at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
