Key findings

- Automated classification: Not Scam.
- No flags from the reputation services TrustSniffer consulted at assessment time.
- The operator behind the site could not be independently connected to a real-world brand or person.

Full analysis

Overview

Cfx is a software-platform website presenting FiveM and RedM experience platforms for RAGE titles, built on the Citizen Framework, with links to community resources and privacy-management controls.

Scam/Impersonation Risk

No contradictions, phishing indicators, blacklist findings, or impersonation evidence were observed. The homepage presents a coherent software-platform purpose, contains no sensitive login or payment form, and shows no credential harvesting, financial manipulation, or wallet-related behavior. The published community links are consistent with the platform's stated purpose.

EVIDENCE

- The homepage describes Cfx, FiveM, RedM, RAGE titles, and the Citizen Framework.
- The homepage contains no login form, sensitive form, or untrusted submission destination.
- Behavioral testing recorded no hidden forms, clipboard activity, wallet connections, or suspicious scripts.
- External reputation checks recorded zero malicious and zero suspicious detections.

Regulatory Verification Notes

The site presents itself as a software and experience-platform operator rather than a financial or investment service, and no direct pricing or payment flow was observed. Its homepage provides privacy, cookie, and opt-out controls, but the supplied pages do not establish a specific licensing or corporate-registration disclosure; this is a limited transparency point rather than evidence of deception. No third-party broker match was identified.

EVIDENCE

- The homepage identifies the Cfx platform and its software-related business model.
- The homepage provides Privacy, Cookie Policy, Cookie Settings, and opt-out controls.
- The site's registrar is MARKMONITOR Inc.; the registration expires 2028-07-18.
- The site is served from AS20940 (Akamai International B.V., NL).

What to Verify Next

For formal procurement or regulated use, confirm the relevant corporate and contractual details through the official community channels linked from the homepage and, where required by policy, independently confirm any applicable registration or authorization. Review the site's privacy and cookie settings before enabling optional tracking.

EVIDENCE

- The homepage links to the Cfx Forum and Discord community.
- The homepage provides direct access to privacy and cookie-management information.
- The observed business model is software/platform services without direct payment flows.

Summary Verdict

The website presents as a legitimate, established, and trustworthy software platform with a coherent identity, clean reputation, stable behavior, and no observed contradiction signals. Normal interaction, including account login and standard platform use, is appropriate.

Infrastructure Integrity

The website is protected by Akamai CDN/WAF infrastructure, with all observed addresses belonging to CDN edge servers and no origin candidate identified. This reduces direct exposure of the underlying service while serving as a mitigating infrastructure control rather than independent proof of legitimacy.

Closing Assessment

Standard use may proceed under ordinary organizational security and procurement controls, with additional formal verification applied only where institutional policy requires it.

Written analysis generated 2026-08-03 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	55/100
Identity verification confidence	60%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of cfx.re.

- The request stayed on cfx.re. It was not redirected to another domain. CLEAR
- Registration is published under MARKMONITOR Inc.. CLEAR
- The registration is paid up to 2028-07-18. CLEAR
- It is hosted on AKAMAI-ASN1, from a server in NL. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about cfx.re at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
