

Is changenovv.info a scam? TrustSniffer's high-risk assessment: 0/100

changenovv.info

Verdict

0

OUT OF 100

CRITICAL RISK

changenovv.info shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 55%.

What this site appears to be

Simple domain-for-sale parking page indicating the domain is registered at Porkbun and available for offer/auction. Minimal content and contact/offer form present; no login or sensitive-data collection detected.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

The page as captured

<https://changenovv.info/>

This domain is for sale.

Make Offer

What changenovv.info served when TrustSniffer captured it on 2026-08-21. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 1 to 3 years (registration continuity).
- Public web-archive history exists since 2025.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Fortinet, Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

The website at changenovv.info is a minimal domain-parking page presenting the domain as available for purchase or auction through a “Make Offer” form. It does not present an operating business, consumer service, or substantive commercial offering; its apparent purpose is domain resale.

Scam/Impersonation Risk

The captured page is a domain-sale listing with no login form, sensitive-data collection, or detected brand impersonation. However, this benign presentation is outweighed by multiple external threat detections and confirmed blacklist listings, including detections from Fortinet and Sophos; the broader intelligence also records the domain as associated with known phishing activity. A separate abuse report applies to the shared hosting IP rather than being uniquely attributable to the website, but it remains a relevant supporting signal. The combined evidence warrants a clearly cautionary posture for credentials, payments, or other sensitive interaction.

EVIDENCE

- The homepage states that the domain is for sale, is registered at Porkbun, and is available through an auction or offer process.
- External reputation checks recorded 15 malicious detections and 1 suspicious detection, with Fortinet and Sophos among the flagged vendors; blacklist status was confirmed by two sources.
- The domain was registered in 2025 and is approximately 1.06 years old.
- Historical records contain 2 snapshots spanning 2025, with first observation on 2025-10-16 and last observation on 2025-10-16.

Regulatory Verification Notes

The site does not present an operating legal entity, business address, licensing status, registration number, or governing terms on the observed landing page. This creates a material disclosure gap for any transaction beyond the straightforward purchase or offer of a domain, and the operator's real-world identity remains unverified. No broker-reputation match was identified, but that absence is contextual only and does not establish licensing, ownership, or regulatory standing. The domain is registered through Porkbun LLC; its transport security is valid but uses domain validation, which authenticates encrypted transport rather than the legal identity of the operator.

EVIDENCE

- The homepage contains approximately 196 characters of substantive text and provides only a sale/offer presentation rather than legal or regulatory disclosures.
- WHOIS records show registration through Porkbun LLC, with creation date 2025-07-29T07:44:45Z and expiration date 2027-07-29T07:44:45Z.
- The site is served from AS16509, Amazon.com, Inc. (AMAZON-02), US.
- The TLS certificate is issued by YR2, uses DV validation, and is valid to 2026-11-18T07:22:53+00:00.

What to Verify Next

Before any offer, payment, or exchange of personal information, independently confirm that the transaction is handled through the registrar's genuine, independently reached service rather than an embedded or redirected channel. Any proposed payment destination, seller identity, refund terms, and ownership-transfer process should be checked through established registrar support or another offline channel. If the site is presented as representing a broader business, its claimed entity and any applicable authorization should be confirmed against the relevant official registry.

EVIDENCE

- The homepage exposes one offer/contact form and no sensitive form fields, so the principal prospective interaction is a domain-purchase or offer transaction.
- The observed page has no substantive legal, corporate, licensing, or refund disclosures.
- Browser analysis recorded external requests and non-whitelisted posts despite no detected login or wallet-connection functionality.

Summary Verdict

The website has a **critical sensitive-interaction risk posture**. Its apparent domain-sale function does not reconcile the confirmed external threat and blacklist findings, and the available evidence is insufficient to establish a trustworthy real-world operator identity. Passive observation may explain the page's function, but the site should not be treated as suitable for credentials, financial information, or other sensitive engagement.

Infrastructure Integrity

The site is protected by a CDN/WAF layer, and all observed addresses were CDN edge addresses on AS16509; no origin candidate was observable in the analysis. This infrastructure reduces direct exposure of the origin and may limit some forms of infrastructure abuse, but it is only a mitigating technical control and does not offset the external threat findings.

Closing Assessment

Access should remain limited to passive viewing while independent transaction, ownership, and authorization checks are completed; credentials, payments, and sensitive information should not be submitted.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, behaviour in a sandbox, external reputation.

01 Governance Risk

- The public registration record for this domain is incomplete.

Registration and ownership rule:KF_WHOIS_INCOMPLETE

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
- The page sent data to a destination TrustSniffer does not recognise.
Behaviour in a sandbox rule:BEHAV_NONWHITELISTED_POSTS
- Most of what the page loaded came from other domains rather than from this one.
Behaviour in a sandbox rule:BEHAV_EXTERNAL_RATIO_HIGH
- An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.

External reputation rule:EXT_BLACKLIST_CRITICAL

Signals weighed against the site

- AbuseIPDB: 1 report on hosting IP 207.207.210.107 (Porkbun, LLC, Data Center/Web Hosting/Transit), 1% confidence. The reports are attributed to shared infrastructure, not specifically to this website.

Identity verification

Status UNVERIFIED

Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of changenovv.info.

- The request stayed on changenovv.info. It was not redirected to another domain. [CLEAR](#)
- Registration is published under Porkbun LLC. [CLEAR](#)
- DNS for this domain is served by porkbun.com, across 4 name servers. [NOTED](#)
- The registration is paid up to 2027-07-29. [NOTED](#)
- The earliest public archive of this site is from 2025-10-16. [CLEAR](#)
- It is hosted on AMAZON-02, from a server in US. [NOTED](#)

About this assessment

A trust score summarises the evidence TrustSniffer could collect about changenovv.info at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that

evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
