

Is chelseek.com legit? TrustSniffer's high-trust assessment: 100/100

chelseek.com

Verdict

100

OUT OF 100

HIGH TRUST

chelseek.com appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 50%.

What this site appears to be

Marketing site for Chelseek, a boutique NYC real-estate brokerage and interior design firm. Contains company history, listings, and contact prompts. No financial product or login flows present.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2003.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Chelseek is a marketing and lead-generation website for a boutique New York City real-estate brokerage and interior-design studio, presenting residential property listings, company background, brokerage services, design work, and contact prompts for prospective clients.

Scam/Impersonation Risk

No phishing, impersonation, blacklist, or other contradictory signals were observed. The site presents a coherent corporate profile for Chelseek, with property listings and professional biography content rather than financial-return claims, cryptocurrency functionality, credential-harvesting forms, or sensitive login flows. Site behavior was stable and showed no hidden forms, wallet activity, suspicious scripts, cloaking, or external posting activity. The available reputation checks also recorded no malicious or blacklist finding, although coverage was partial.

EVIDENCE

- Homepage and About content describe Chelseek as a real-estate and interior-design firm and provide company and broker/designer information.
- Page interaction analysis recorded no login form, hidden sensitive form, password submission, wallet connection, or clipboard activity.
- External reputation checks recorded no blacklist or malicious finding; the supplied coverage was partial.
- Domain registration: 2001-11-20T04:20:08Z; age 24.77 years; registrar ENOM, INC.

Regulatory Verification Notes

The available evidence is consistent with an established, apparently legitimate business website, but the real-world operator identity is not independently verified. The site identifies the Chelseek brand and presents brokerage activity, yet the supplied pages do not state a license or registration number and do not clearly identify a legal entity for contracting purposes. This is a verification and disclosure gap rather than evidence of a scam. The absence of a match in the supplied broker-intelligence context is only a reputational observation and is not a licensing or regulatory determination.

EVIDENCE

- About page: identifies Chelseek and describes its brokerage and interior-design activities, including a broker/designer biography.
- Hosting: served from AS32244, LIQUIDWEB—Liquid Web, L.L.C., US.
- Transport encryption: RapidSSL TLS RSA CA G1 certificate, domain-validated (DV), valid to 2027-02-26T23:59:59+00:00.

What to Verify Next

Before a brokerage, design, renovation, or property transaction, independently confirm the applicable New York licensing status and the legal entity that would sign the engagement or sale documents. Confirm commissions, service scope, cancellation or return terms where applicable, payment protections, and the official contact channels using an independent source rather than relying solely on the website.

EVIDENCE

- About page: supplies the stated business history and named professional profile to use when checking the responsible individual or entity independently.
- Contact and listings pages: provide the site's lead-generation and property-engagement touchpoints that should be matched against independently obtained business records and transaction documentation.
- Engagement documentation: should be reviewed for legal-party names, licensing details, fees, payment arrangements, and applicable consumer protections before funds or credentials are exchanged.

Summary Verdict

Available evidence is consistent with an established, apparently legitimate website and supports a high-trust, low-risk posture. The operator's real-world identity remains unverified, so the site's legitimacy should be regarded as evidence-consistent rather than independently proven.

Infrastructure Integrity

The site resolves to a single direct origin address, with no CDN or WAF detected. This means the hosting layer provides limited edge-based mitigation, but the infrastructure observation does not indicate malicious activity or undermine the overall assessment.

Closing Assessment

Routine browsing and review of listings presents no identified security barrier; ordinary independent business, contractual, licensing, and payment-protection checks should precede credential submission or financial engagement.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of chelseek.com.

- The request stayed on chelseek.com. It was not redirected to another domain. CLEAR
- Registration is published under ENOM, INC.. CLEAR
- DNS for this domain is served by oneworldhosting.com, across 2 name servers. NOTED
- The registration is paid up to 2026-11-20. NOTED
- The earliest public archive of this site is from 2003-09-19. CLEAR
- It is hosted on LIQUIDWEB, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about chelseek.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
