

Is chetona.org safe? TrustSniffer's moderate-trust assessment: 65/100

chetona.org

Verdict

65

OUT OF 100

MODERATE TRUST

chetona.org is moderately trusted.

Most signals looked ordinary, and some evidence was missing. Read the checks below before you pay or hand over personal details.

Governance Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 70%.

What this site appears to be

Organizational homepage for Chetona, a Bangladesh-based nonprofit focused on microfinance, women’s empowerment, education, environmental sustainability, and health programs. Includes mission/vision, program listings, staff names, contact details, and social links.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

What chetona.org served when TrustSniffer captured it on 2026-08-20. The page may look different now.

Key findings

- Automated classification: Governance Risk.
- Domain age: 1 to 3 years (registration continuity).
- Public web-archive history exists since 2004.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Chetona.org presents itself as the website of Chetona – Environment & Human Development Organization, a Bangladesh-based nonprofit focused on rural development, digital microfinance, women's empowerment, education, environmental sustainability, and health initiatives. Visitors are shown the organization's mission, program areas, staff and contact information, with an apparent operating model based on social-development activities, small loans, donations, grants, and community support.

Scam/Impersonation Risk

No contradictions were observed across the available website and reputation signals. The homepage's nonprofit presentation is coherent with its stated program areas, includes organizational and staff information, links to three social platforms, and does not present login forms, wallet connections, hidden forms, or suspicious external activity. Available external checks recorded no malicious detection or external threat-listing indication, although reputation coverage was partial; accordingly, the evidence supports an apparently legitimate presentation without proving the real-world operator's identity.

EVIDENCE

- The homepage identifies Chetona as a nonprofit organization addressing rural Bangladesh through microfinance, education, women's empowerment, environmental sustainability, and health programs.
- The homepage and linked organizational pages contain staff, contact, and social-link information; behavioral inspection recorded two successful runs, zero external XHR requests, zero hidden forms, and no cloaking.
- Historical records show the domain was first seen in 2004, with an archive-reconciled domain age of 22.609 years and 653 snapshots spanning 2004–2026 across 23 tracked years.

Regulatory Verification Notes

The site's apparent identity is consistent with an established nonprofit presentation, but independent operator identity remains likely rather than verified. The About and homepage content states that Chetona was founded in 1999 and describes it as a non-political, non-profit, voluntary social-welfare organization. Because the site presents digital microfinance and small-loan activities, applicable nonprofit and microfinance authorization should be confirmed independently; the supplied evidence does not establish a regulatory license or registration status. This is a verification gap rather than evidence of impersonation or fraud. No broker-dataset match was recorded, but that signal is contextual and not a legal or licensing determination.

EVIDENCE

- The About/homepage content describes the organization as founded in 1999 and focused on empowering rural Bangladesh.
- The homepage describes digital microfinance and affordable mobile-accessible loans for rural entrepreneurs, alongside scholarships and community programs.
- Hosting resolves through AS47583, AS-HOSTINGER — Hostinger International Limited, CY.
- The site's TLS certificate is issued by YE1 at DV validation level and is valid to 2026-10-30.

What to Verify Next

Before high-value financial, donation, or partnership activity, independently confirm Chetona's legal standing and any authorization required for its microfinance activities through the relevant Bangladesh registry or regulator. Cross-check the staff, organizational history, and contact channels using an independent source, and review the applicable loan, donation, refund, data-protection, and payment terms before transferring funds or sharing sensitive information.

EVIDENCE

- The About page provides the organizational history and program description to cross-check against the relevant official registry.
- The homepage's digital-microfinance and small-loan descriptions identify the specific activities requiring authorization and terms review.
- The Contact page and linked social profiles provide channels that can be validated independently before sensitive engagement.

Summary Verdict

The overall posture is **moderate trust**. Available evidence is consistent with an established, apparently legitimate nonprofit website and shows no observed scam, phishing, impersonation, or identity-contradiction signal; however, the operator’s real-world identity and regulatory standing are not independently established by the supplied evidence.

Infrastructure Integrity

The site is hosted on Hostinger infrastructure and is not fronted by a detected CDN or WAF; two likely origin IP addresses were resolved. This represents a conventional direct-hosting posture and provides limited protective mitigation, but it is not itself an indicator of malicious activity or legitimacy.

Closing Assessment

Ordinary informational engagement is reasonable, while sensitive or high-value financial activity should follow independent identity, authorization, payment-protection, and data-handling checks before proceeding.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

1 finding contributed to this verdict, raised by registration and ownership.

01 Governance Risk

- The public registration record for this domain is incomplete.
Registration and ownership rule:KF_WHOIS_INCOMPLETE

Identity verification

Status	LIKELY
Identity score	79/100
Identity verification confidence	78%

- Trusted social count=3

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of chetona.org.

- The request stayed on chetona.org. It was not redirected to another domain. CLEAR
- Registration is published under HOSTINGER operations, UAB. CLEAR
- DNS for this domain is served by dns-parking.com, across 2 name servers. NOTED
- The registration is paid up to 2026-10-24. NOTED
- The earliest public archive of this site is from 2004-01-10. CLEAR
- It is hosted on AS-HOSTINGER, from a server in DE. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about chetona.org at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
