

Is chiropracticrehabilitation.com.au a scam? TrustSniffer's high-risk assessment: 0/100

chiropracticrehabilitation.com.au

Verdict

0

OUT OF 100

CRITICAL RISK

chiropracticrehabilitation.com.au shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 55%.

What this site appears to be

Website for Chiropractic Rehabilitation in West Ryde offering family chiropractic services, practice philosophy, contact details and appointment information.
Appears to be a straightforward local clinic site.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

Healthcare that really makes

What chiropracticrehabilitation.com.au served when TrustSniffer captured it on 2026-08-21. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2013.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Fortinet, Kaspersky, Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

The website presents Chiropractic Rehabilitation in West Ryde as a family chiropractic centre providing consultations, soft-tissue therapy, massage, spinal and peripheral-joint mobilisation, rehabilitation, exercise, and posture therapy. Its apparent business model is an appointment-based local healthcare practice serving patients across age groups, including pregnant patients, children, and older adults.

Scam/Impersonation Risk

The website's visible content is coherent with a local chiropractic clinic and contains no observed login form, payment form, wallet functionality, or other overtly abusive interaction mechanism. However, that benign presentation is materially contradicted by external threat intelligence: the domain has a confirmed blacklist status and multiple security providers recorded malicious or suspicious detections. The combination creates a critical risk for sensitive interaction, regardless of the site's ordinary healthcare presentation. No separate identity contradiction involving multiple legal-entity names, and no direct brand-impersonation finding, was observed.

EVIDENCE

- The homepage identifies “Chiropractic Rehabilitation in West Ryde,” describes family chiropractic treatment, and names Peter Geroulas as Principal Chiropractor.
- External reputation checks recorded 8 malicious detections and 1 suspicious detection, with Fortinet, Kaspersky, and Sophos among the flagged providers.
- The domain is recorded as blacklisted by two external reputation sources.
- Registration continuity is 13.33 years; archived captures span 2013-04-23 through 2025-12-03, with 87 snapshots across 13 years.

Regulatory Verification Notes

The site appears to describe a healthcare service rather than a financial or investment offering, but its on-page regulatory disclosure is unclear. No professional registration number, licensing statement, or formal corporate disclosure is identified in the supplied page content; this is a verification gap, not by itself proof of fraud. The homepage does provide a named principal chiropractor and a physical West Ryde location, while registration records identify Melbourne IT as registrar and Peter Geroulas as the listed owner. Those details support an apparent local-business identity but do not independently verify the operating entity or professional authorisation. The presence of valid transport encryption is a technical control only and does not resolve the external reputation contradiction.

EVIDENCE

- The homepage provides the clinic name, physical address, appointment telephone number, treatment description, and named principal practitioner.
- Registration records list Melbourne IT as registrar and Peter Geroulas as owner.
- TLS is issued by YR1 at DV validation level and is valid to 2026-11-05.
- The site has no stated licence authority or licence number in the supplied content.

What to Verify Next

Before any appointment, payment, disclosure of health information, or other consequential interaction, an independent source should confirm that the named practitioner and West Ryde clinic are currently operating at the stated location. Professional registration should be checked through the appropriate Australian health-practitioner register, and contact details should be obtained from an independently sourced directory or offline channel rather than relying solely on the website. Any payment request should be matched to the verified clinic identity and an appropriate patient-service receipt.

EVIDENCE

- The homepage supplies a named practitioner and physical location suitable for an independent identity cross-check.
- The homepage presents an appointment-based service and does not expose a sensitive online submission form.
- The on-page regulatory and professional-disclosure position remains unclear, making external registration confirmation necessary.

Summary Verdict

The overall posture is **critical trust risk** with a high likelihood of sensitive-interaction harm if the site is treated as a verified service channel. The apparent local-clinic identity and technically stable presentation do not offset the confirmed external reputation contradictions, and the real-world operator identity remains unverified.

Infrastructure Integrity

The site resolves directly to hosting infrastructure operated by Dreamscape Networks Limited in Australia, without a detected CDN or WAF layer; the resolved address therefore appears to be a direct hosting endpoint rather than a protected edge service. This provides limited infrastructure mitigation and should not be treated as evidence of legitimacy.

EVIDENCE

- Hosted on AS38719 (DREAMSCAPE-AS-AP – Dreamscape Networks Limited, AU), registry APNIC, country AU.
- One resolved IP was observed: 114.142.161.10; edge IP count was 0 and likely origin IP count was 1.

Closing Assessment

Prospective users should restrict activity to passive viewing until the practitioner, premises, registration, and payment arrangements have been independently confirmed; credentials, health information, payments, and appointment commitments should not be submitted through the site beforehand.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, external reputation.

01 Governance Risk

- The public registration record for this domain is incomplete.
Registration and ownership rule:KF_WHOIS_INCOMPLETE

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
- An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of chiropracticrehabilitation.com.au.

- The request stayed on chiropracticrehabilitation.com.au. It was not redirected to another domain. CLEAR
- Registration is published under Melbourne IT. CLEAR
- DNS for this domain is served by vodien.com, across 3 name servers. NOTED
- The earliest public archive of this site is from 2013-04-23. CLEAR
- It is hosted on DREAMSCAPE-AS-AP, from a server in AU. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about chiropracticrehabilitation.com.au at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
