- No flags from the reputation services TrustSniffer consulted at assessment time.
- The operator behind the site could not be independently connected to a real-world brand or person.

Full analysis

Overview

The website is a French Shop2Shop parcel-shipping service associated with Chronopost, presenting point-to-point delivery between relay locations and charging for shipment-label creation.

Scam/Impersonation Risk

No contradictions, phishing indicators, impersonation signals, or confirmed blacklist findings were observed. The homepage presents a coherent logistics model with shipment labels from €4.20, Pickup relay delivery in France, parcel tracking, pricing information, FAQs, and consumer guides. The absence of sensitive forms, wallet functionality, hidden forms, and suspicious external destinations further supports a benign commercial-service assessment.

EVIDENCE

- Homepage: describes Shop2Shop parcel delivery from one relay location to another and advertises labels from €4.20.
- Homepage and service pages: provide delivery, tracking, pricing, FAQ, and guide content consistent with ordinary parcel logistics.
- Technical behavior: two successful runs showed no hidden forms, wallet activity, cloaking, or non-whitelisted external POST/XHR destinations.
- External reputation checks: 0 malicious and 0 suspicious detections, with the domain ranked within the global top one million.

Regulatory Verification Notes

The site provides legal, privacy, cookie, pricing, and service information appropriate to a consumer shipping platform. No financial-service licensing claim is evidenced, and none would ordinarily be expected for the parcel-label business model; the main remaining diligence point is confirmation of the operating entity and applicable consumer-service terms through the published legal materials. A valid transport certificate and established hosting history support infrastructure continuity but do not independently establish regulatory authorization.

EVIDENCE

- Legal and privacy links: presented alongside FAQs, pricing information, and service guidance.
- Domain registration: registered 2019-03-26 and expires 2027-03-26; registrar is DOMAINOO; age is 7.36 years.
- Hosting: served from AS61168 (PLANET-SERVICE - Planet Service SARL, FR).
- Transport encryption: TLS issued by YR1 at DV validation level, valid to 2026-10-21T11:14:57+00:00.

What to Verify Next

Before material commercial use, confirm the operating entity, refund terms, delivery liability, and applicable consumer protections in the legal documentation, and validate official support channels through an independently sourced Chronopost channel.

EVIDENCE

- Legal pages: available for review of entity, contractual, privacy, and consumer-service terms.
- Service pages: provide the stated pricing, delivery model, tracking process, and relay-location arrangements.
- Brand association: the site identifies itself with the Chronopost Shop2Shop service.

Summary Verdict

The site is legitimate, established, and trustworthy for its stated parcel-shipping purpose. Its identity, content, technical behavior, and external reputation converge on a low-risk commercial service, and normal interaction—including account login and standard use—is appropriate.

Infrastructure Integrity

The site resolves directly to one French hosting address operated by PLANET-SERVICE under AS61168, without a detected CDN or WAF layer. This is a neutral infrastructure characteristic; the valid mainstream TLS configuration provides transport protection but is not, by itself, proof of legitimacy.

Closing Assessment

Standard use is appropriate, with routine review of the service terms and transaction conditions proportionate to the value and importance of each shipment.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about chronoshop2shop.fr at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
