

Is ciehsglobal.us safe? TrustSniffer's moderate-trust assessment: 55/100

ciehsglobal.us

Verdict

55

OUT OF 100

MODERATE TRUST

ciehsglobal.us is moderately trusted.

Most signals looked ordinary, and some evidence was missing. Read the checks below before you pay or hand over personal details.

Safe for Read-Only

Assessed 2026-08-20 by automated analysis. Classification confidence 50%.

What this site appears to be

Promotional site for the Chartered Institute of Environment, Health & Safety (CIEHS) offering membership, certification pathways, and professional training. Content emphasizes chartered recognition and course levels but lacks verifiable institutional details, contact/address information, or regulatory accreditation evidence in the provided text.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Safe for Read-Only.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2018.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

ciehsglobal.us is an informational and educational website presenting the Chartered Institute of Environment, Health & Safety (CIEHS) as a professional body that offers membership, chartered recognition, certification pathways, and environmental health and safety training, with an apparent revenue model based on membership applications, course fees, and certification services.

Scam/Impersonation Risk

No phishing, impersonation, blacklist, or other direct scam contradictions were observed. The homepage presents a consistent educational and professional-certification purpose, and technical behavior showed no login form, hidden form, external posting, wallet activity, cloaking, or suspicious script activity. The principal concern is not an observed impersonation pattern but the limited independent evidence supporting the institutional claims made on the site.

EVIDENCE

- The homepage describes CIEHS as a chartered awarding body and global professional body offering professional recognition, membership, and training.
- Behavioral inspection recorded two successful runs, zero external network activity, zero hidden forms, zero wallet activity, and no cloaking.
- The domain was registered in 2017-08-24 and is approximately 8.99 years old.
- Web-archive records contain 40 snapshots spanning 2018–2025, with 8 years tracked.

Regulatory Verification Notes

The site identifies the organization as the Chartered Institute of Environmental Health and Safety and states that it is based in Nevada, USA. It promotes “globally recognized” qualifications, chartered professional recognition, direct membership, and course applications, but the reviewed content does not provide verifiable institutional credentials, a regulatory or accreditation authority, a registration or license number, or clear contact and address information. These are material transparency gaps for a body selling professional recognition and certification. Available external checks did not identify malicious detections or a confirmed threat listing, although reputation coverage was partial; this supports a cautious rather than accusatory assessment. The site’s real-world operator identity remains unverified, so its institutional claims should be treated as apparent rather than independently established.

EVIDENCE

- The homepage states that CIEHS is based in the State of Nevada and describes it as a chartered awarding body and global professional body.
- The homepage offers direct membership and professional training applications but does not show a license number, accreditation authority, or verifiable institutional contact details in the reviewed content.
- Domain registration is recorded through Hosting Concepts B.V. d/b/a Registrar.eu.
- The site is served on AS32475 by SINGLEHOP-LLC / Internap Holding LLC, US; its TLS certificate is issued by YR2 at DV validation level and is valid to 2026-11-07T10:16:01+00:00.

What to Verify Next

Before any membership application, certification payment, or reliance on the qualifications, the organization’s legal existence and professional-awarding authority should be confirmed through the relevant Nevada registry and through the accreditation or professional bodies whose recognition is implied. The stated course and membership terms should be obtained in writing, including certificate validity, renewal obligations, refund conditions, assessment standards, and the identity of the issuing entity. Contact details should be confirmed through an independently sourced channel rather than relying solely on information presented on the website.

EVIDENCE

- The homepage makes chartered-status and global-recognition claims without identifying a confirming authority in the reviewed text.
- The homepage contains membership and course application calls to action, making the legal entity and commercial terms directly relevant to prospective applicants.
- No external links, structured institutional data, or social-domain references were identified in the reviewed page content to independently corroborate the organization.

Summary Verdict

The website has a **moderate trust posture**: its purpose is coherent, its technical presentation is stable, and no direct scam or impersonation contradictions were found. Legitimacy is evidence-consistent but not proven at the real-world institutional level, leaving the site appropriate for informational review while requiring additional assurance before consequential engagement.

Infrastructure Integrity

The site resolves directly to a single likely origin address, with no detected CDN or WAF layer and no edge-IP separation. This provides less intermediary protection than a mainstream CDN deployment, although the observed infrastructure is resolved and operational rather than exhibiting an identified malicious hosting pattern.

Closing Assessment

Routine informational browsing is reasonable, but independent confirmation of the organization and its certification claims should precede membership enrollment, payment, or reliance on issued qualifications.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of ciehsglobal.us.

- The request stayed on ciehsglobal.us. It was not redirected to another domain. CLEAR
- Registration is published under Hosting Concepts B.V. d/b/a Registrar.eu. CLEAR
- DNS for this domain is served by greengeeks.net, across 2 name servers. NOTED

- The registration is paid up to 2026-08-23. NOTED
- The earliest public archive of this site is from 2018-01-24. CLEAR
- It is hosted on SINGLEHOP-LLC, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about ciehsglobal.us at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
