

Is cincuentenario.com safe? TrustSniffer's low-trust assessment: 34/100

cincuentenario.com

Verdict

34

OUT OF 100

LOW TRUST

cincuentenario.com is low-trust and potentially risky.

Several risk patterns were present. Do not send money or personal details until you have verified this business another way.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 55%.

What this site appears to be

Official corporate site for Grupo Cincuentenario — an established Panamanian automotive distributor and dealer network representing multiple global brands, offering sales, service, parts, innovation/tech hub and real-estate projects. Contact, locations and career application form present.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

What cincuentenario.com served when TrustSniffer captured it on 2026-08-21. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2003.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Overview

This website is the corporate presence of Grupo Cincuentenario, a Panamanian automotive distributor and dealer network presenting vehicle brands, sales and after-sales services, parts, business units, locations, contact channels, and career opportunities to visitors.

Scam/Impersonation Risk

The site presents as a professional corporate/dealer website and the available page analysis found no overt phishing, login, wallet, or brand-impersonation mechanism. However, material external contradictions are present: the domain has confirmed blacklist detections from two reputation sources, including multiple malicious classifications and an additional suspicious classification. This is a direct reason for a high-risk posture for sensitive interaction, even though no conflicting legal identities or confirmed impersonation were identified. Separately, 57 abuse reports concern a shared content-delivery IP attributed to WPEngine, Inc.; because the attribution is to shared infrastructure rather than specifically to the website, it is contextual rather than conclusive evidence of site-specific abuse, but it remains unresolved.

EVIDENCE

- The domain was registered on 2013-09-23 and is recorded as approximately 12.92 years old.
- Historical records show 110 archive snapshots spanning 2003-06-07 to 2026-06-07, with 24 years tracked.
- External reputation results recorded 2 malicious and 1 suspicious detections, alongside a confirmed blacklist status.
- Abuse-report data records 57 reports against shared infrastructure at 141.193.213.10, attributed to WPEngine, Inc. as a content-delivery network.

Regulatory Verification Notes

Available site content is consistent with an established automotive distributor operating under the Grupo Cincuentenario name, but the real-world operator is not independently verified by the supplied evidence. The website describes vehicle distribution, servicing, parts, an innovation and technology arm, and real-estate activities; it does not present a regulatory license claim or license number in the reviewed material. That is a disclosure and verification gap rather than proof of fraud. A valid domain registration through GoDaddy.com, LLC and valid transport encryption are positive technical indicators, but they do not offset the external reputation contradictions or establish legal authority to operate.

EVIDENCE

- The domain registrar is GoDaddy.com, LLC; the recorded registration expiration date is 2030-09-23.
- The site is served from AS209242, identified as CLOUDFLARESPECTRUM - Cloudflare London, LLC, US.
- The transport certificate is DV-validated, issued by Cloudflare TLS Issuing ECC CA 3, and valid to 2026-10-27T19:22:27+00:00.
- The homepage and corporate content identify Grupo Cincuentenario and describe automotive distribution, servicing, parts, technology, and real-estate business activities.

What to Verify Next

Before any sensitive interaction, the operator's legal identity should be confirmed through an independent corporate registry or an official brand-distributor directory, and any applicable commercial or sector-specific authorization should be checked with the relevant Panamanian authority. Contact and payment channels should be validated through an independently sourced telephone number or established brand channel rather than relying solely on information supplied by the website.

EVIDENCE

- The About and business-unit pages provide the corporate name and stated business activities for independent comparison.
- The contact and locations pages provide channels that can be cross-checked against external corporate or manufacturer records.
- The careers page includes an application form, making independent confirmation of the recruiting entity appropriate before submitting personal information.

Summary Verdict

The overall posture is **low trust with elevated sensitive-interaction risk**. The site's coherent corporate presentation and established technical footprint are outweighed by confirmed external reputation contradictions, so apparent legitimacy should not be treated as sufficient assurance for credentials, financial information, or other sensitive engagement.

Infrastructure Integrity

The website is protected by Cloudflare CDN/WAF infrastructure, with observed edge addresses in AS209242 and no origin server candidate identified in the supplied analysis. This provides meaningful exposure mitigation and can support service continuity, but protective edge infrastructure is not proof of operator legitimacy and does not resolve the reputation findings.

Closing Assessment

The appropriate near-term posture is passive review only; credentials, personal information, and financial details should not be submitted until the external detections and operator identity have been independently resolved.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, behaviour in a sandbox.

01 Governance Risk - The registration record withholds contact details for the operator. Registration and ownership rule:KF_WHOIS_HIDDEN - Registration details are held behind a privacy service, so no operator is named publicly. This is common and legal, and it also means there is nobody to check. Registration and ownership rule:KF_WHOIS_PRIVATE
02 Sensitive Interaction Risk - The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor. Analysis engine signal:direct_threat - The page sent data to a destination TrustSniffer does not recognise. Behaviour in a sandbox rule:BEHAV_NONWHITELISTED_POSTS - The structure of the page changed sharply while it was loading. Behaviour in a sandbox rule:BEHAV_DOM_DENSITY_SPIKE

Signals weighed against the site

- AbuseIPDB: 57 reports on hosting IP 141.193.213.10 (WPEngine, Inc., Content Delivery Network), 57% confidence. The reports are attributed to shared infrastructure, not specifically to this website.

Identity verification

Status	LIKELY
--------	--------

Identity score	76/100
Identity verification confidence	38%

- Trusted social count=2

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of cincuentenario.com.

- The request stayed on cincuentenario.com. It was not redirected to another domain. [CLEAR](#)
- Registration is published under GoDaddy.com, LLC. [CLEAR](#)
- DNS for this domain is served by cloudflare.com, across 2 name servers. [NOTED](#)
- The registration is paid up to 2030-09-23. [CLEAR](#)
- The earliest public archive of this site is from 2003-06-07. [CLEAR](#)
- It is hosted on CLOUDFLARESPECTRUM, from a server in US. [NOTED](#)

About this assessment

A trust score summarises the evidence TrustSniffer could collect about cincuentenario.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that

evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
