

Is cinvestav.mx legit? TrustSniffer's high-trust assessment: 90/100

cinvestav.mx

Verdict

90

OUT OF 100

HIGH TRUST

cinvestav.mx appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-08-13 by automated analysis. Classification confidence 75%.

What this site appears to be

Official-looking page for 'Centro de Investigación y de Estudios Avanzados (Cinvestav)' with navigation, descriptions of research and postgraduate offerings, campus presence, contact address and phone. Primarily informational.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 1997.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

The website is the public-facing institutional site of Centro de Investigación y de Estudios Avanzados del Instituto Politécnico Nacional (Cinvestav), presenting information about postgraduate education, research groups, projects, campuses, events, services, institutional administration, and contact channels. Its apparent purpose is informational and academic rather than commercial, with operations implied to relate to public research, education, grants, academic fees, and institutional services.

Scam/Impersonation Risk

No contradictions were observed, including no identified phishing, impersonation, malicious-content, or blacklist indicators. The homepage presents a coherent academic institution profile with research, postgraduate, campus, administrative, and contact content; it does not present deceptive commercial offers, cryptocurrency activity, sensitive login forms, or payment-collection mechanics. The long-running historical continuity of the domain and alignment between its archived presence and current academic purpose further support an established-site interpretation, although the real-world operator identity remains independently unverified.

EVIDENCE

- The homepage identifies Centro de Investigación y de Estudios Avanzados del Instituto Politécnico Nacional and provides institutional navigation covering postgraduate programs, research, campuses, administration, events, and contact-related resources.
- External reputation checks recorded 0 malicious results, 0 suspicious results, and no blacklist or phishing indicator.
- Domain registration evidence: registered 1993-01-31, approximately 33.55 years old; registered through AKKY ONLINE SOLUTIONS, S.A. DE C.V.
- Web-archive evidence: 2,826 snapshots spanning 1997-06-06 through 2026-05-17, covering 30 years.

Regulatory Verification Notes

The reviewed content is consistent with an academic and research institution rather than a financial, investment, or other regulated commercial service. The institutional navigation includes organizational information, an institutional directory, postgraduate offerings, research programs, ethics resources, and contact information, but the available evidence does not independently verify the real-world operator behind the website. No financial-services license or registration claim is presented on the reviewed pages; in this context, that is a transparency

point for any activity extending beyond the stated academic purpose, not evidence of deception. The site's transport security is valid, but domain-validated TLS confirms encrypted delivery rather than legal identity.

EVIDENCE

- The hosting infrastructure resolves to AS3548, associated with Centro de Investigacion y de Estudios Avanzados del Instituto Politecnico Nacional, MX.
- TLS is issued by Sectigo Public Server Authentication CA DV R36 at DV validation level and is valid through 2027-02-05.
- The homepage was captured successfully with institutional content and no sensitive form or untrusted form destination identified.
- The site's public content includes institutional administration, postgraduate, research, ethics, and contact resources rather than a regulated financial offering.

What to Verify Next

Before submitting credentials or making any payment connected with a program or service, independently confirm that the relevant activity is being conducted through the institution's official channels and that the stated fee, refund, enrollment, and payment-protection terms are applicable. Contact details should be obtained through an independently established institutional route rather than relying solely on a message or instruction received through the website. Any future activity outside the academic and research purpose presented on the site should be checked with the appropriate Mexican institutional or regulatory authority.

EVIDENCE

- The homepage provides institutional contact and directory resources that can be compared with independently obtained contact details.
- The postgraduate and services sections identify the areas where enrollment, fees, or other transactions might arise.
- The reviewed pages do not present a financial license number, regulated-service claim, or independent operator-verification statement.

Summary Verdict

Available evidence is consistent with an established, apparently legitimate website with a high-trust, low-risk posture. No scam, impersonation, phishing, or other contradictory signal was observed, but the site's real-world operator identity is not independently verified and should not be treated as proven solely from the website presentation.

Infrastructure Integrity

The site is hosted directly on AS3548, Centro de Investigacion y de Estudios Avanzados del Instituto Politecnico Nacional, MX, with one identified origin address and no detected CDN or WAF layer. This direct institutional hosting arrangement is technically coherent with the site's stated purpose; the absence of an intermediary edge service is an infrastructure characteristic, not evidence of maliciousness.

Closing Assessment

Normal informational use is proportionate to the observed posture; credential submission or payment activity should proceed only after the ordinary independent identity, terms, and payment-protection checks described above.

Written analysis generated 2026-08-13 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of cinvestav.mx.

- The request stayed on cinvestav.mx. It was not redirected to another domain. CLEAR
- Registration is published under AKKY ONLINE SOLUTIONS, S.A. DE C.V.. CLEAR
- DNS for this domain is served by 1.1, across 3 name servers. NOTED
- The registration is paid up to 2027-01-30. NOTED
- The earliest public archive of this site is from 1997-06-06. CLEAR
- It is hosted on AS3548, from a server in MX. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about cinvestav.mx at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
