

Is ciptarapoto.com legit? TrustSniffer's high-trust assessment: 90/100

ciptarapoto.com

Verdict

90

OUT OF 100

HIGH TRUST

ciptarapoto.com appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 70%.

What this site appears to be

Official-looking regional council site (Colegio de Ingenieros del Perú - San Martín Tarapoto) providing institutional info, member services, online payment and contact details; appears legitimate and informational.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2007.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

This website is the institutional portal of the Colegio de Ingenieros del Perú, Consejo Departamental de San Martín–Tarapoto, presenting professional-association information, member administration, certification services, procedures, events, and fee-payment functionality for engineers and related stakeholders.

Scam/Impersonation Risk

No contradictions were observed between the site's stated institutional purpose, its page content, its observed behavior, and its historical continuity. The homepage presents a consistent professional-association identity, while testing found no login form, hidden sensitive form, wallet interaction, clipboard manipulation, cloaking, or suspicious script activity. Available external checks identified no malicious or phishing indication. The real-world operator is not independently verified, so the legitimacy conclusion remains evidence-consistent rather than proven.

EVIDENCE

- The homepage identifies the Consejo Departamental de San Martín–Tarapoto and provides institutional, member-service, certification, contact, and administrative content.
- The site was registered in 2007 and is approximately 19.01 years old.
- Web archives record 215 snapshots spanning 2007–2026, covering 20 years with a maximum observed gap of one year.

Regulatory Verification Notes

The institutional and service sections describe a professional association with member lookup, certificate verification, online payments, virtual complaints, arbitration, anti-bribery materials, procedures, and training activities. These functions are consistent with an administrative association portal rather than an investment or financial-services offering. The reviewed material does not present a license number or regulator-issued authorization; for this type of professional association, that is a disclosure point requiring confirmation rather than evidence of deception. A third-party broker-reputation dataset produced no matching adverse association.

EVIDENCE

- The institutional and services pages identify the Colegio de Ingenieros del Perú and its San Martín regional council, including a stated 2025–2027 governing period.
- The site is registered through ENOM, INC.
- The site is served on AS63410 by PRIVATESYSTEMS – PrivateSystems Networks, US.
- Transport encryption uses a TLS certificate issued by YR2 with DV validation, valid through 2026-11-13.

What to Verify Next

Before credential or payment interactions, an independent check should confirm the council's legal standing and any applicable authorization through the relevant Peruvian professional or public registry. Contact details should be cross-checked through an independently sourced institutional channel, and the payment page should be reviewed for the named processor, receipts, refund or fee-adjustment procedures, and payment-protection options. Any member account should be used only after confirming that the access route corresponds to the council's official service.

EVIDENCE

- The institutional and contact pages provide the stated council identity and service channels for independent comparison.
- The online-payment and member-service pages identify the transaction and account functions requiring confirmation before use.
- The procedures, complaints, and arbitration pages provide the site's stated routes for resolving administrative or service issues.

Summary Verdict

The available evidence supports a high-trust, low-risk posture for an apparently legitimate and established institutional website. Its purpose, content, technical stability, and historical continuity converge without observed

scam, phishing, or impersonation contradictions, while the connection to a real-world operator remains likely rather than independently verified.

Infrastructure Integrity

The site resolves directly to a single likely origin address hosted by PRIVATESYSTEMS – PrivateSystems Networks, US, on AS63410; no CDN or WAF edge was detected. This represents a straightforward hosting arrangement with less edge-layer shielding than a CDN-backed deployment, but it does not conflict with the site’s overall trust posture.

Closing Assessment

Ordinary browsing is proportionate, while independent identity, policy, and payment-protection checks should be completed before submitting credentials or making payments.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	73/100
Identity verification confidence	37%

- Trusted social count=1

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of ciptarapoto.com.

- The request stayed on ciptarapoto.com. It was not redirected to another domain. CLEAR
- Registration is published under ENOM, INC.. CLEAR
- DNS for this domain is served by solucionesahora.com, across 2 name servers. NOTED
- The registration is paid up to 2027-08-22. NOTED
- The earliest public archive of this site is from 2007-12-01. CLEAR
- It is hosted on PRIVATESYSTEMS, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about ciptarapoto.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
