

Is citrino.uk legit? TrustSniffer's high-trust assessment: 100/100

citrino.uk

Verdict

100

OUT OF 100

HIGH TRUST

citrino.uk appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 50%.

What this site appears to be

CITRINO Stonework & Restoration Limited — company site describing services (stonework, restoration, cleaning, project management), listing recent projects and contact details including phone numbers and email addresses. No e-commerce, login, or financial investment features present.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2018.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

CITRINO Stonework & Restoration Limited is a specialist contractor website presenting stonework, brickwork, façade restoration, cleaning, project management, completed projects, and direct contact options for prospective clients and institutions; its apparent business model is contracted construction and restoration work rather than online retail or financial services.

Scam/Impersonation Risk

No scam, phishing, brand-impersonation, or identity-conflict indicators were observed. The website's content is internally coherent with a conventional construction-services business, and its homepage presents service descriptions and project-oriented information without login functionality, payment collection, wallet connection, or investment features. Evaluated external reputation checks returned no malicious or suspicious findings, although the available reputation coverage is not comprehensive. The domain is long-established, which supports continuity, but the real-world operator remains independently unverified.

EVIDENCE

- The homepage and Services pages describe stonework, restoration, cleaning, and project management in a consistent corporate-services context.
- The captured site behavior showed no login form, hidden sensitive form, external POST activity, wallet connection, clipboard manipulation, or cloaking.
- Domain registration evidence records creation on 2017-12-12 and an age of 8.69 years.
- Evaluated external checks recorded zero abuse reports and no malicious or suspicious findings for the domain.

Regulatory Verification Notes

The Company page presents the operator as “CITRINO Stonework & Restoration Limited,” but that on-site presentation should be treated as an apparent identity claim rather than independent proof of the underlying legal entity. No financial or investment activity is described, and no license or registration number is claimed in the supplied content; this is a limited disclosure point for ordinary commercial due diligence, not evidence of scam activity. The site uses valid domain-validated transport encryption and is hosted through a named UK provider. A separate broker-reputation screening produced no match, which is contextual reassurance rather than a licensing or regulatory determination.

EVIDENCE

- The Company page identifies “CITRINO Stonework & Restoration Limited” and describes specialist stonework and restoration services.
- The supplied page content contains no stated license authority or license number.
- Domain registration lists Team Blue Internet Services UK Limited t/a Team Blue Internet Services Limited t/a names.co.uk as registrar, with expiry on 2027-12-12.
- The site’s TLS certificate is issued by YR2, uses DV validation, and is valid to 2026-11-15.

What to Verify Next

Before a contractual, credential, or payment interaction, an independent corporate-registry check should match the legal name presented on the Company page with the contracting party and invoice details. Prospective clients should also obtain written scope, pricing, cancellation or refund terms where applicable, and evidence of relevant project capability or insurance through independently verified contact channels. Payment methods offering appropriate dispute or chargeback protection should be preferred for any advance payment.

EVIDENCE

- The Company page provides the stated legal name to use for an independent registry comparison.
- The Services and Projects pages provide the stated work scope against which a quotation or contract can be checked.
- The Contact page supplies the formal channel for confirming contracting, invoicing, and payment details through an independent route.

Summary Verdict

Available evidence is consistent with an established, apparently legitimate, low-risk corporate website. Its clear service purpose, stable technical behavior, clean evaluated reputation, and long-running domain support the high-trust classification, while independent operator identity remains unconfirmed.

Infrastructure Integrity

The site resolves directly to one observed UK-hosted address on AS34282, operated by UKNOC-AS – Team Blue Carrier Limited; no CDN or WAF was identified. This is a straightforward hosting posture without a separately observed protective edge layer, but it provides no standalone indication of malicious activity.

Closing Assessment

Routine engagement is proportionate, subject to completing ordinary independent identity, contractual-terms, and payment-protection checks before credential or payment interactions.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of citrino.uk.

- The request stayed on citrino.uk. It was not redirected to another domain. CLEAR
- Registration is published under Team Blue Internet Services UK Limited t/a Team Blue Internet Services Limited t/a names.co.uk. CLEAR
- DNS for this domain is served by net., across 3 name servers. NOTED
- The registration is paid up to 2027-12-12. CLEAR
- The earliest public archive of this site is from 2018-08-10. CLEAR
- It is hosted on UKNOC-AS, from a server in GB. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about citrino.uk at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
