Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2012.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

City Crown Services is a Dubai-focused facilities-services website presenting cleaning, maintenance, disinfection, pest-control, security-staffing, and related residential and commercial service offerings. Its apparent business model is based on recurring service contracts, annual or monthly cleaning arrangements, and one-time facilities work.

Scam/Impersonation Risk

No contradictions were observed, including no indications of phishing, brand impersonation, blacklist activity, or malicious behavior. The homepage presents a conventional local-service model covering annual and monthly cleaning contracts, building maintenance, security services, pest control, disinfection, housekeeping, industrial cleaning, carpet and sofa cleaning, and marble crystallization. The site also provides company background, testimonials, and contact channels rather than requesting financial credentials or presenting an unusual transaction mechanism. The available technical and reputation signals are consistent with a low-risk service website, although the operating entity has not been independently verified.

EVIDENCE

- Homepage: Presents City Crown Services as a cleaning and maintenance provider with a defined catalogue of commercial and residential services.
- Contact and company pages: Provide a telephone contact, email contact, physical address, company background, and testimonials.
- Browser behavior: Two successful assessment runs recorded no external posts, no hidden forms, no password-submission forms, no wallet activity, no clipboard manipulation, and no cloaking.
- Domain history: Registered 2011-04-13 (~15.37 years old); 487 archive snapshots spanning 2012–2026, with 15 years tracked.

Regulatory Verification Notes

The About, Services, and Contact pages provide a coherent commercial description of facilities services in Dubai, but the available pages do not state a licensing authority, registration number, or independently verifiable legal-entity identifier. This is a regulatory-disclosure gap rather than evidence of a scam. The published service model is not presented as a regulated financial or investment activity, and the available third-party broker context contains no match. The overall evidence remains consistent with an established, apparently legitimate website, while the real-world operator identity remains unverified.

EVIDENCE

- About and Services pages: Describe cleaning, maintenance, security, pest-control, and disinfection work for businesses and residences in Dubai.
- Legal and identity disclosure: No licensing authority or license number is stated on the reviewed site pages.
- Domain registration: Registrar is PDR Ltd. d/b/a PublicDomainRegistry.com; creation date is 2011-04-13T05:00:33Z and expiration date is 2027-04-13T05:00:33Z.
- Hosting and transport security: Served from AS47583 (AS-HOSTINGER – Hostinger International Limited, CY); TLS certificate issued by YE2 at DV validation level, valid to 2026-09-23.

What to Verify Next

Before entering into a service contract, the prospective customer should independently confirm the operating entity and any Dubai commercial or sector-specific authorization with the relevant official registry. The stated business address and telephone channel should be cross-checked through an independent source, and contract documentation should define service scope, cancellation terms, liability, insurance, and payment protections. For any credential or payment interaction, ordinary merchant-identity, return or cancellation-policy, and payment-protection checks should be completed first.

EVIDENCE

- About page: Use the stated company background as the starting point for an independent legal-entity and commercial-registration check.
- Services pages: Confirm that the contracted scope, staffing arrangements, and any regulated or safety-sensitive services are reflected in written terms.
- Contact page: Independently validate the listed address and telephone channel before a material service commitment.
- Contract or quotation stage: Confirm cancellation, liability, refund, and payment-protection provisions before payment.

Summary Verdict

Available evidence supports a **high-trust, low-risk posture** for a conventional local facilities-services website. The site appears established and apparently legitimate, with no observed scam or impersonation contradictions; however, that conclusion does not independently prove the identity of the real-world operator.

Infrastructure Integrity

The website is hosted directly on Hostinger infrastructure in Ukraine, using AS47583, with four likely origin IPs and no detected CDN edge IPs or CDN deployment. The TLS certificate is a valid mitigating control, but direct hosting without a detected CDN/WAF layer provides less intermediary protection than an edge-delivery architecture.

Closing Assessment

Routine browsing is proportionate to the assessed posture, while credentials or payment commitments should follow independent confirmation of the counterparty, contractual protections, and available payment safeguards.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of citycrownservices.com.

- The request stayed on citycrownservices.com. It was not redirected to another domain. [CLEAR](#)

- Registration is published under PDR Ltd. d/b/a PublicDomainRegistry.com. CLEAR
- DNS for this domain is served by dns-parking.com, across 2 name servers. NOTED
- The registration is paid up to 2027-04-13. NOTED
- The earliest public archive of this site is from 2012-06-01. CLEAR
- It is hosted on AS-HOSTINGER, from a server in UA. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about citycrownservices.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
