Full analysis

Security Alert

Kaspersky flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

Civilize Modern Sankul is an informational website for a private school in Surat, India, presenting admissions information, academic and extracurricular activities, facilities, management details, student resources, contact channels, and fee-policy information for prospective students and parents.

Scam/Impersonation Risk

No conflicting legal identities or explicit brand-impersonation indicators were observed in the reviewed school content. However, the site is subject to a confirmed blacklist condition, and external reputation checks recorded multiple malicious detections together with an additional suspicious detection. This directly conflicts with the otherwise ordinary educational presentation and creates a material risk for sensitive interaction, notwithstanding the absence of observed login forms, wallet-connect activity, external data-posting behavior, or other overt abuse mechanics.

EVIDENCE

- The homepage presents “Civilize Modern Sankul” as a school in Surat and describes education, facilities, activities, and student services.
- External reputation checks recorded 5 malicious detections and 1 suspicious detection; the domain was also recorded as blacklisted by 2 external sources.
- The archive record reports 0 snapshots, with dated historical coverage from 2013-04-13 to 2025-07-11 and 13 years tracked.

Regulatory Verification Notes

The site contains dedicated sections for management, trustees, admissions, fee schedules, rules, transport, security, and contact information, which is consistent with a functioning school-information model. Available evidence does not independently verify the operating entity or any education-sector authorization, and no license or registration number is claimed in the supplied business and admissions content. This is a regulatory-verification gap rather than, by itself, proof of fraud. The domain is long-established and registered through PDR Ltd. d/b/a PublicDomainRegistry.com, while the available identity linkage remains likely rather than independently verified.

EVIDENCE

- The About, Management, Board of Trustees, Admission, Fee Schedule & Policy, and Contact Us pages provide the site's principal identity and operational disclosures.
- Domain registration: 2017-05-29; age 9.23 years; expiry 2027-05-29; registrar PDR Ltd. d/b/a PublicDomainRegistry.com.
- The site's transport encryption uses a DV certificate issued by YE2, valid until 2026-10-11T23:16:59+00:00.

What to Verify Next

Before any sensitive interaction, an institution or parent should independently confirm that Civilize Modern Sankul is the intended school through an offline or independently sourced contact route, validate its authorization and registration with the relevant Indian education authority, and confirm admission and fee instructions directly with the school rather than relying solely on website-provided instructions. Any payment request should be checked against independently confirmed beneficiary details and handled through a payment method offering appropriate dispute protection.

EVIDENCE

- The admission area includes an admission inquiry form but no identified password-login form.
- The contact and feedback functionality is presented as a standard website form, with no observed external password submission.
- The available regulatory evidence contains no claimed license number or licensing authority for independent registry matching.

Summary Verdict

The website presents a credible-looking educational purpose and substantial school-related content, but its overall trust posture is critical because external threat and blacklist evidence outweigh the benign appearance of the pages. The site's apparent identity should therefore not be treated as independently established for sensitive interactions.

Infrastructure Integrity

The site resolves directly to infrastructure associated with Hostinger International Limited rather than a detected CDN edge, with four likely origin IPs and no edge IPs identified. This provides a concrete hosting path but offers limited protective separation between the public service and its apparent origins; infrastructure characteristics do not offset the external reputation findings.

EVIDENCE

- Hosted on AS47583 (AS-HOSTINGER - Hostinger International Limited, CY), registered through RIPE NCC, with country attribution UA.
- Infrastructure resolution identified 4 unique IPs, including 4 likely origin IPs and 0 edge IPs; no CDN was detected.
- TLS certificate issuer: YE2; validation level: DV; valid to 2026-10-11T23:16:59+00:00.

Closing Assessment

The proportionate posture is restricted to non-sensitive observation while the blacklist and malicious-detection findings are independently resolved; login, credential submission, payment, and other sensitive actions should not proceed on the basis of the website alone.

Written analysis generated 2026-08-19 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, behaviour in a sandbox, external reputation.

01 Governance Risk

- Registration details are held behind a privacy service, so no operator is named publicly. This is common and legal, and it also means there is nobody to check.

Registration and ownership rule:KF_WHOIS_PRIVATE

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
- The structure of the page changed sharply while it was loading.
Behaviour in a sandbox rule:BEHAV_DOM_DENSITY_SPIKE
- An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

About this assessment

A trust score summarises the evidence TrustSniffer could collect about civilizemodernschool.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
