

Is classaservicenyc.com a scam? TrustSniffer's high-risk assessment: 0/100

classaservicenyc.com

Verdict

0

OUT OF 100

CRITICAL RISK

classaservicenyc.com shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 55%.

What this site appears to be

Local commercial cleaning company site offering post-construction, office, and emergency cleaning with an online form to request a free estimate; contact phone and email provided.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

The page as captured

<https://classaservicenyc.com/>

What classaservicenyc.com served when TrustSniffer captured it on 2026-08-20. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2018.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Fortinet, Kaspersky, Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

This website presents Class A Services as a New York-area commercial cleaning provider offering post-construction cleaning, office cleaning, commercial maintenance, and 24/7 emergency response, with lead generation through a free-estimate contact form and stated service coverage across New York, New Jersey, and Connecticut.

Scam/Impersonation Risk

The site's visible content is consistent with a conventional local cleaning-service business and contains no detected login form, credential request, financial scheme, cryptocurrency feature, or page-level impersonation signal. However, that benign presentation is contradicted by confirmed external threat findings: the domain is blacklisted, and multiple independent security providers recorded malicious classifications, including 16 malicious detections. This is a material security contradiction that outweighs the site's ordinary commercial appearance. The website's stated service model therefore cannot be treated as sufficient evidence that the online endpoint is safe for sensitive interaction, and operator identity remains unverified.

EVIDENCE

- The homepage describes post-construction, office, commercial, and emergency cleaning services and presents a free-estimate lead form.
- External reputation telemetry recorded 16 malicious detections and a confirmed blacklist status; three tier-one security providers also flagged the domain.
- Domain registration telemetry records registration on 2016-09-28T22:05:22Z and an age of 9.9 years.
- Archive telemetry records 0 snapshots, with coverage markers from 2018-08-09T00:53:45Z through 2025-07-10T00:47:42Z and 8 years tracked.

Regulatory Verification Notes

The available content describes paid commercial cleaning services but does not state a licensing authority or license number. For this type of service, that is a verification and disclosure item rather than independent evidence of fraud; nevertheless, the absence of a clearly identified, independently verified operating entity limits regulatory confidence. The domain is registered through GoDaddy.com, LLC, while the registrant is recorded through a privacy service, which is an administrative ownership detail rather than a standalone indication of wrongdoing. The site's ordinary business presentation and valid transport encryption do not resolve the separate external reputation contradiction.

EVIDENCE

- The homepage identifies Class A Services and its service areas but provides no licensing authority or license number in the supplied content.
- Registration records identify GoDaddy.com, LLC as registrar, with creation date 2016-09-28T22:05:22Z and expiration date 2027-09-28T22:05:22Z.
- The site is served from AS13335 (CLOUDFLARENET - Cloudflare, Inc., US).
- TLS uses issuer YE2 with DV validation and is valid through 2026-10-26T20:20:36+00:00.

What to Verify Next

Before any sensitive interaction, an organization should independently confirm that Class A Services is a real operating business through state or local business records, validate the claimed service coverage and commercial references using an offline channel, and confirm that any quotation, contract, invoice, or payment request corresponds to the independently verified entity. Any regulatory or insurance representation relevant to a proposed commercial engagement should be checked directly with the applicable authority or issuing institution, rather than relying solely on the website.

EVIDENCE

- The homepage claims more than 18 years of experience and service coverage in New York, New Jersey, and Connecticut; these claims should be corroborated independently.
- The homepage offers a free-estimate request process, providing a defined basis for checking whether subsequent communications and documents originate from the verified business.
- The available page analysis identified one contact-form lead-generation workflow and no sensitive form fields.

Summary Verdict

The overall posture is critical, with sensitive interaction risk taking precedence over the site's plausible local-service presentation. The available evidence does not establish a trustworthy connection between the website and a verified real-world operator, and the confirmed external threat contradictions require the endpoint to be treated as untrusted for credentials, login activity, or financial engagement.

Infrastructure Integrity

The site is protected by Cloudflare CDN/WAF infrastructure, with observed edge addresses on AS13335 and no origin candidates identified in the supplied analysis. This reduces direct exposure of the hosting origin and is a mitigating infrastructure characteristic only; it does not offset the independent malicious and blacklist findings.

Closing Assessment

The appropriate enterprise posture is to avoid sensitive interaction with the site and route any prospective commercial engagement through independently verified business records and contact channels before exchanging credentials, payment information, or contractual data.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, external reputation.

- 01 Governance Risk

 - Registration details are held behind a privacy service, so no operator is named publicly. This is common and legal, and it also means there is nobody to check.
Registration and ownership rule:KF_WHOIS_PRIVATE
 - The registration record withholds contact details for the operator.
Registration and ownership rule:KF_WHOIS_HIDDEN
- 02 Sensitive Interaction Risk

 - The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
 - An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of classaservicenyc.com.

- The request stayed on classaservicenyc.com. It was not redirected to another domain. CLEAR
- Registration is published under GoDaddy.com, LLC. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The registration is paid up to 2027-09-28. NOTED
- The earliest public archive of this site is from 2018-08-09. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about classaservicenyc.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
