

Is clinicavillavitoria.com.br safe? TrustSniffer's moderate-trust assessment: 70/100

clinicavillavitoria.com.br

Verdict

70

OUT OF 100

MODERATE TRUST

clinicavillavitoria.com.br is moderately trusted.

Most signals looked ordinary, and some evidence was missing. Read the checks below before you pay or hand over personal details.

Not Scam

Governance Risk

Dynamic Interaction Caution

Assessed 2026-08-21 by automated analysis. Classification confidence 50%.

What this site appears to be

Corporate website for Clínica Villa Vitória, a residential clinical facility for elderly care with descriptions of services, team, two unit addresses (Tremembé and Taubaté), phone/WhatsApp contact, and basic FAQs. No login or payment forms present.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

What clinicavillavitoria.com.br served when TrustSniffer captured it on 2026-08-21. The page may look different now.

Key findings

- Automated classification: Not Scam.
- Domain age: less than 1 year (registration continuity).
- Public web-archive history exists since 2021.
- VirusTotal and Google Safe Browsing had no flags for this domain; its hosting IP carries AbuseIPDB reports below the confidence level TrustSniffer treats as a flag.

Full analysis

Overview

Clínica Villa Vitória is a Brazilian healthcare and residential eldercare website presenting long-term and post-operative care for elderly residents at units in Taubaté and Tremembé, with descriptions of care services, facilities, staff, family support, contact channels, and frequently asked questions.

Scam/Impersonation Risk

No scam, phishing, impersonation, or identity contradictions were observed. The homepage presents a coherent local-care business model, including residential care, support for post-surgical patients and people with Alzheimer's or Parkinson's disease, continuous monitoring, and multidisciplinary assistance. The site has no login, payment, wallet-connection, or sensitive-data forms, and the observed interactive behavior did not reveal hidden forms, credential collection, clipboard manipulation, or untrusted outbound submissions. Two abuse reports were associated with a shared content-delivery IP, but the address was whitelisted, assigned to shared infrastructure, and carried no confidence of malicious activity; this is not a site-specific threat finding. Evidence:

- Homepage: Describes Clínica Villa Vitória as a residential clinical facility with units in Taubaté and Tremembé, elderly-care services, and family contact options.

- Site interaction: Two successful runs showed no login form, hidden sensitive form, wallet activity, clipboard write, or suspicious inline script.
- Hosting-related reputation signal: Two reports concerned a shared provider IP used as content-delivery infrastructure and were discounted because they were not attributable specifically to this website.
- Domain and historical records: The current registration record shows creation on 2025-10-31 and an age of 0.81 years; archival records span 2021-11-29 to 2026-02-09, covering 6 years of tracked history.

Regulatory Verification Notes

The available pages provide substantive descriptions of the facility, its care model, locations, contact methods, visitor arrangements, and nutrition-related information. This supports an apparently genuine healthcare-service presence, but the operator's real-world identity is only likely rather than independently verified in the available evidence. The pages do not present a licensing authority or license number, so regulatory authorization and facility compliance remain matters for external confirmation rather than conclusions about legitimacy. A separate broker-reputation dataset recorded no match, which is contextual reassurance only and has no legal or licensing significance. Evidence:

- Services and FAQ content: Describes residential eldercare, post-operative support, care for Alzheimer's and Parkinson's patients, monitoring, meals, and family support.
- Contact and location content: Identifies two operating locations and provides telephone, WhatsApp, and social-contact pathways.
- Transport encryption: TLS is valid, uses DV validation, was issued by WE1, and is valid until 2026-10-06.
- Hosting telemetry: The site resolves through AS13335, operated by CLOUDFLARENET - Cloudflare, Inc., US.

What to Verify Next

Before a high-value care commitment or disclosure of sensitive medical or financial information, the prospective resident or family representative should confirm the facility's legal operator, licensing status, and authorization with the relevant Brazilian or local registry. The stated addresses and telephone channels should also be independently confirmed, and any accommodation agreement should be reviewed for fees, medical responsibilities, cancellation terms, emergency procedures, and payment protections. Evidence:

- Legal and service pages: Contain care descriptions and operational information but do not state a licensing authority or license number.
- Contact and location pages: Provide the channels and locations suitable for independent confirmation before contracting.

Summary Verdict

The website presents a coherent, apparently legitimate eldercare service with substantive business content and no observed indicators of scam or impersonation. Its overall posture is **moderate trust**: suitable for ordinary informational engagement, while independent confirmation remains appropriate before sensitive or high-value commitments.

Infrastructure Integrity

The site is protected by Cloudflare's CDN/WAF, and the observed address is an edge server rather than an independently exposed origin. This provides a meaningful layer of traffic filtering and reduces direct origin

exposure, but protective infrastructure is a mitigating security control and does not independently establish the operator's identity.

Closing Assessment

Proceed with normal informational engagement, and complete the stated operator, authorization, contract, and payment checks before making a significant care commitment or sharing sensitive information.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, behaviour in a sandbox.

01 Governance Risk

- The public registration record for this domain is incomplete.

Registration and ownership rule:KF_WHOIS_INCOMPLETE

02 Dynamic Interaction Caution

- Most of what the page loaded came from other domains rather than from this one.

Behaviour in a sandbox rule:BEHAV_EXTERNAL_RATIO_HIGH

Signals weighed against the site

- AbuseIPDB: 2 reports on hosting IP 172.66.0.70 (Cloudflare, Inc., Content Delivery Network), 0% confidence. The reports are attributed to shared infrastructure, not specifically to this website.

Identity verification

Status	LIKELY
Identity score	73/100
Identity verification confidence	74%

- Trusted social count=1

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of clinicavillavitoria.com.br.

- The request stayed on clinicavillavitoria.com.br. It was not redirected to another domain. CLEAR
- DNS for this domain is served by dns.br, across 2 name servers. NOTED
- The registration is paid up to 2026-10-31. NOTED
- The earliest public archive of this site is from 2021-11-29. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about clinicavillavitoria.com.br at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
