- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

TrustSniffer assessed cloudeka.id on 2026-07-06 and gave it a trust score of 100/100, a high-trust result: the evidence TrustSniffer collected is consistent with an established, legitimately operated site. The trust score runs from 0 to 100, where 100 is the most trusted; it is an automated, evidence-based assessment and not a legal finding.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about cloudeka.id at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
