

Is clubmix.com.au a scam? TrustSniffer's high-risk assessment: 0/100

clubmix.com.au

Verdict

0

OUT OF 100

CRITICAL RISK

clubmix.com.au shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 55%.

WHAT THIS SITE APPEARS TO BE

Minimal parked domain page stating the domain may be for sale, with links to Terms of Service and Privacy Policy. No product, login, forms, or transactional flows are present.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

What clubmix.com.au served when TrustSniffer captured it on 2026-08-21. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2008.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Kaspersky, Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

clubmix.com.au is a minimal parked-domain landing page that tells visitors the domain may be for sale and provides links to Terms of Service and Privacy Policy pages; it does not present an active product, service, account area, or transaction flow.

Scam/Impersonation Risk

The site has a **material external threat and blacklist signal** despite its currently inactive, low-functionality presentation. Multiple security detections identify the domain as malicious or suspicious, including detections from Kaspersky and Sophos, and the domain is listed by two blacklist sources. The homepage itself contains no login form, payment flow, impersonated brand, or obvious phishing mechanism, so the page-level content does not explain or neutralize the external reputation findings. No identity contradiction was observed, but the confirmed blacklist status is sufficient to make sensitive interaction inappropriate.

EVIDENCE

- The homepage is classified as a parked/for-sale page and contains approximately 208 characters of visible text, with no login, form, or transactional flow.
- External detections recorded 13 malicious results and 2 suspicious results; Kaspersky and Sophos were among the flagged vendors.
- Registration continuity indicates a domain age of 18.08 years; archival records show 68 snapshots from 2008-07-24 through 2025-11-11, spanning 18 years.

Regulatory Verification Notes

The site does not operate an apparent regulated service and makes no license or registration claim on the observed page. Its legal disclosure is therefore limited to the linked Terms of Service and Privacy Policy, while the real-world operator remains unverified. Registration data identifies Above.au Pty Limited as registrar and LUDBROOK, SCOTT GLEN as the listed registrant, but those records alone do not independently establish who operates the website. A separate broker-reputation dataset produced no match; this is contextual only and does not constitute licensing confirmation.

EVIDENCE

- The homepage states that the domain may be for sale and links to Terms of Service and Privacy Policy pages.
- The domain registrar is Above.au Pty Limited; the listed registrant is LUDBROOK, SCOTT GLEN.
- The site is hosted on AS133618, TRELLIAN-AS-AP – Trellian Pty. Limited, AU.
- The transport certificate is issued by YR1, uses DV validation, and is valid to 2026-10-10T18:26:55+00:00.

What to Verify Next

Before any future use beyond passive viewing, an independent review should determine whether the domain has been repurposed, redirected, or associated with a different service than the currently parked page. Any claimed operator, sale process, or future service should be checked through an independently sourced corporate or licensing registry, and contact channels should be confirmed through an offline or otherwise trusted route. Security monitoring should also confirm that the external detections and blacklist listings have been cleared rather than merely overridden by a page change.

EVIDENCE

- The observed homepage presents no active business service against which licensing, operator identity, or transaction controls can be validated.
- The current page is a for-sale landing page, so any subsequent commercial or account-related function would represent a material change from the observed state.

Summary Verdict

The overall posture is critical and unsuitable for sensitive interaction. The site's inactive presentation does not offset the convergent external threat findings, and operator identity is not independently verified.

Infrastructure Integrity

The domain resolves to a single likely origin address, with no detected CDN or WAF protection and no edge-IP layer identified. The infrastructure is associated with Trellian Pty. Limited in Australia; the valid DV certificate provides transport encryption but is only a limited mitigating control and does not establish legitimacy.

Closing Assessment

Interaction should remain limited to passive observation until the external detections are independently resolved and any subsequent operator or service claims are validated; credentials, login activity, and financial transactions should not be undertaken.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, external reputation.

- 01 Governance Risk

 - The public registration record for this domain is incomplete.
Registration and ownership rule:KF_WHOIS_INCOMPLETE
- 02 Sensitive Interaction Risk

 - The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
 - An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of clubmix.com.au.

- The request stayed on clubmix.com.au. It was not redirected to another domain. CLEAR
- Registration is published under Above.au Pty Limited. CLEAR
- DNS for this domain is served by abovedomains.com, across 2 name servers. NOTED
- The earliest public archive of this site is from 2008-07-24. CLEAR

- It is hosted on TRELLIAN-AS-AP, from a server in AU. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about clubmix.com.au at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
