

Is clwcjzd.com a scam? TrustSniffer's high-risk assessment: 0/100

clwcjzd.com

Verdict

0

OUT OF 100

CRITICAL RISK

clwcjzd.com shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 55%.

What this site appears to be

Chinese-language sports streaming aggregator (24直播网) listing live football and basketball matches with schedules and brief news blurbs. Appears to aggregate links/streams and display many event listings; footer shows generic copyright and external site links.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

The page as captured

https://clwcjzd.com/

What clwcjzd.com served when TrustSniffer captured it on 2026-08-21. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2018.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Fortinet, Google, Kaspersky, Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

The website is a Chinese-language sports-streaming aggregator branded “24直播网,” presenting live football and basketball fixtures, schedules, match listings, and links or embedded streams. Its apparent model is free access supported by advertising, affiliate activity, and referral traffic rather than a clearly identified subscription or direct-sales service.

Scam/Impersonation Risk

Confirmed external reputation contradictions create a severe interaction risk. Major security-reputation services identified the domain as malicious or suspicious, including a confirmed blacklist status and a Safe Browsing match; the available data records 18 malicious detections and one suspicious detection. These findings outweigh the absence of an on-page login form, credential-harvesting form, wallet connection, or observed brand-impersonation indicator. The homepage’s large volume of aggregated event listings and apparent embedded-stream model also provides limited assurance about the provenance and safety of destinations reached through individual stream links.

EVIDENCE

- Homepage: lists live football and basketball events, including league fixtures, match times, and “免费观看”/free-viewing language, without identifying an operating organization.
- External reputation evidence: the domain is marked malicious by Safe Browsing, has a confirmed blacklist status, and records 18 malicious and 1 suspicious detections across evaluated services.
- Browser examination: no login form, hidden form, password-external form, wallet connection, clipboard hijack, or wallet-drainer activity was observed during two successful runs.

Regulatory Verification Notes

The site presents an unclear legal and governance profile for a streaming service: the supplied page content identifies no clear commercial product, provides no verified contact or address, and does not explain the value flow behind the aggregated streams. No license claim, licensing authority, or license number is presented in the available evidence. This is a disclosure and verification gap rather than a standalone determination of fraud. The domain's registration and transport-security signals are technically established, but they do not independently verify the real-world operator; identity verification remains unconfirmed. No matching third-party broker profile was identified.

EVIDENCE

- Domain registration record: registered 2017-04-14 and approximately 9.36 years old; registrar: Gname.com Pte. Ltd.
- Historical record: 8 archive snapshots across 2018, 2019, 2025, and 2026, with 9 years tracked.
- Hosting and transport records: served from AS134175, SH2206-AP - UNIT A17,9/F SILVERCORP INT_L TOWER 707-713 NATHAN RD, HK; TLS is DV-validated, issued by YR1, and valid to 2026-10-16.
- Footer and contact presentation: shows generic copyright wording and external-site links, without a clearly verified corporate address or accountable operating entity.

What to Verify Next

Before any interaction beyond passive page viewing, the service's lawful distribution rights and the identity of the operator should be confirmed through independently sourced information rather than through links supplied by the site. Any stream destination, advertising redirect, or referral link should be assessed separately, and endpoint security controls should remain enabled. Official support or contact channels should be confirmed through an independent route, while browser warnings or security-block notices should be treated as decisive reasons to stop the session.

EVIDENCE

- Homepage: stream listings appear aggregated and may direct visitors to embedded or external viewing destinations.
- Footer: external-site links are present without a clearly attributable organization.
- Page structure: no sensitive forms or credential-submission workflow was detected, so the principal exposure is associated with navigation and linked content rather than an identified account process.

Summary Verdict

The website has a **critical trust posture** and should not be treated as a dependable or sufficiently verified service for sensitive interaction. The decisive concern is the convergence of confirmed external malicious-reputation findings with weak operator accountability and unclear content provenance.

Infrastructure Integrity

The site resolves directly to a likely origin address rather than a protected CDN edge, with no CDN or WAF vendor detected. This provides little infrastructure-based mitigation against the established reputation concerns; DNS heuristics also indicate fast-flux-like behavior and a geographic/registry mismatch, although those heuristics are not treated as conclusive findings.

EVIDENCE

- Network resolution: 1 unique IP, 0 edge IPs, and 1 likely origin IP; CDN detected: false.
- Hosting infrastructure: AS134175, APNIC registry, Hong Kong country designation.
- Resolved address: 177.211.38.196.

Closing Assessment

The appropriate posture is passive observation only; account login, credential submission, downloads, payment activity, and other sensitive interactions should be avoided unless independent verification materially changes the assessment.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, external reputation.

01 Governance Risk

- The registration record withholds contact details for the operator.
Registration and ownership rule:KF_WHOIS_HIDDEN
- Registration details are held behind a privacy service, so no operator is named publicly. This is common and legal, and it also means there is nobody to check.
Registration and ownership rule:KF_WHOIS_PRIVATE

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
- An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of clwcjzd.com.

- The request stayed on clwcjzd.com. It was not redirected to another domain. CLEAR
- Registration is published under Gname.com Pte. Ltd.. CLEAR
- DNS for this domain is served by julydns.com, across 2 name servers. NOTED
- The registration is paid up to 2027-04-14. NOTED
- The earliest public archive of this site is from 2018-02-03. CLEAR
- It is hosted on SH2206-AP, from a server in HK. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about clwcjzd.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
