Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2010.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

This is a Spanish-language professional coaching and communications website for Creixell Coaching, presenting sports coaching, executive coaching, mentoring for communication professionals, individual sessions, group workshops, blog content, and contact channels for prospective clients.

Scam/Impersonation Risk

No contradictions were observed. The site's stated business model is coherent with a small professional-services practice, and the supplied page analysis found no phishing, impersonation, conflicting legal identities, or other fraud indicators. The absence of a login workflow, sensitive data form, wallet interaction, or financial-scheme promotion further supports a low scam and impersonation risk. The available evidence is consistent with an established, apparently legitimate website, although it does not independently prove the real-world operator's identity.

EVIDENCE

- The homepage presents Creixell Coaching Comunicación, sports coaching, executive coaching, mentoring, individual sessions, and workshops.
- The contact and social-link areas provide ordinary business-contact pathways, including Facebook, Twitter, and LinkedIn links.
- Technical behavioral testing recorded no hidden forms, password-external forms, wallet connections, wallet-drainer behavior, cloaking, or suspicious inline scripts.
- The domain was registered on 2009-01-19 and is approximately 17.59 years old; the registrar is Domain.com, LLC.

Regulatory Verification Notes

The site presents coaching and consulting services rather than a financial, investment, or brokerage offering. Its pages describe professional experience, services, workshops, and communication channels, but the supplied material does not independently verify the operator's legal identity or establish any regulated-service authorization. This is a routine identity and business-terms verification matter rather than evidence of a scam; the third-party context supplied contains no broker-name match and does not provide a regulatory determination.

EVIDENCE

- The "Conócenos" page provides profile, experience, strengths, and philosophy content for the coaching practice.
- The "Servicios" page describes sports coaching, executive coaching, mentoring, individual sessions, and tailored group workshops.
- The site's transport encryption uses a DV certificate issued by YR2, valid through 2026-09-21.
- The site resolves through AS196713, operated by Abansys & Hostytec, S.L. in Spain.

What to Verify Next

Before a paid engagement or submission of account or payment information, the prospective client should confirm the contracting person or business through an independently sourced contact route, obtain written pricing and service terms, and review cancellation, refund, invoicing, and payment-protection arrangements. Any professional credentials represented on the profile page should be checked with the relevant issuing body where material to the engagement.

EVIDENCE

- The "Contacta" page is the appropriate point for confirming the intended business contact route.
- The "Conócenos" page is the relevant source for checking the practitioner's stated profile and experience.
- The service descriptions provide the basis for requesting a written scope, price, and delivery terms before payment.

Summary Verdict

The overall posture is high trust and low risk, with the available evidence consistent with an established, apparently legitimate website. The conclusion supports ordinary website use while preserving a distinction between strong site legitimacy signals and independently verified operator identity.

Infrastructure Integrity

The site uses direct hosting rather than a detected CDN or WAF, resolving to a single hosting address associated with Abansys & Hostytec, S.L. This is a conventional infrastructure arrangement and offers no independent proof of legitimacy, but no infrastructure-based abuse indicator was identified in the supplied evidence.

Closing Assessment

Normal browsing and prospective business engagement are proportionate, subject to ordinary independent checks of the contracting identity, service terms, and payment protections before credentials or payment details are provided.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	79/100
Identity verification confidence	78%

- Trusted social count=3

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of coachingcomunicacion.com.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about coachingcomunicacion.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
