

Is coindesfilles.fr legit? TrustSniffer's high-trust assessment: 100/100

coindesfilles.fr

Verdict

100

OUT OF 100

HIGH TRUST

coindesfilles.fr appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-07-31 by automated analysis. Classification confidence 70%.

What this site appears to be

French women's fashion retailer offering clothing, accessories, plus-size ranges, promotions, gift cards, and fashion articles. The page presents priced inventory, a shopping cart, account features, secure mainstream payments, a 14-day return policy, customer-service contact details, a physical Calais address, legal policies, and customer reviews.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2012.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

The website is an established French women's-fashion retailer operating an online store and a physical boutique in Calais, offering priced clothing, accessories, plus-size ranges, promotions and gift cards through a conventional retail model with account, cart, delivery, payment and returns functions.

Scam/Impersonation Risk

No identity contradictions, phishing indicators, brand impersonation or other contradictory signals were observed. The storefront's coherent commercial presentation, long-established provenance and sustained historical presence are consistent with a genuine retail operation. Login and registration forms remain within the site's expected account workflow; no hidden forms, untrusted form destinations, credential forwarding, cloaking, wallet-related activity or clipboard manipulation were detected.

- The domain registration record shows registration through OVH on 22 May 2012, making the domain approximately 14.2 years old; registration extends to 22 May 2027.
- The domain's archive contains 196 snapshots spanning 25 June 2012–18 April 2026, covering 15 tracked years with no evidence of suspicious repurposing or semantic drift.
- The homepage presents a coherent women's-fashion storefront with visible inventory, prices, shopping-cart functionality, customer reviews and a physical Calais retail location.
- External threat-reputation checks recorded no malicious or suspicious detections, no reported abuse and no known phishing or impersonation indicators.

Regulatory Verification Notes

The site presents ordinary apparel retail rather than a regulated financial, investment or brokerage service, and no regulated-product or licensing claim was observed. The homepage references legal policies, secure mainstream payment methods, customer-service details and a 14-day return policy. The precise content of the legal disclosures was not supplied in sufficient detail to assess the named contracting entity or corporate-registration particulars; this is a limited disclosure-verification point, not evidence of deceptive conduct.

- The homepage describes sales of women's clothing and accessories through online and physical retail channels, with no cryptocurrency, investment or broker activity identified.
- The homepage provides delivery terms, returns information, customer-service facilities and links to legal policies.

- The site's transport encryption uses a WE1-issued domain-validated TLS certificate, valid until 31 August 2026.
- The account interface supports login, registration and Google sign-in without hidden forms or external password-form destinations.

What to Verify Next

For procurement, merchant onboarding or material purchases, the contracting entity and applicable sale terms should be matched against the legal-policy documentation, while the stated Calais location and official service channels may be confirmed independently. Payment and return conditions should be retained at checkout as part of the transaction record.

- The homepage identifies a physical boutique in Calais, providing a concrete reference point for independent business verification.
- The storefront advertises recognized payment methods, dispatch information and a 14-day return framework, which can be reconciled with the final checkout and contractual terms.

Summary Verdict

The evidence supports a legitimate, established and trustworthy retail website. Its commercial identity, historical provenance, clean external reputation and technically sound operation converge without material contradiction, supporting normal account and purchasing activity.

Infrastructure Integrity

The site is served through Cloudflare's mainstream CDN/WAF infrastructure. All observed addresses were Cloudflare edge nodes and no origin candidate was exposed; this reduces direct origin-server exposure but is treated as a security control rather than independent proof of legitimacy.

- The hosting infrastructure is served from AS13335 (Cloudflare, Inc., US), with six observed addresses identified as CDN edge nodes.
- The confirmed server endpoint was 172.67.74.198 in the United States; the infrastructure resolved successfully through Cloudflare.

Closing Assessment

Normal interaction, including account login, account management and standard retail transactions, is appropriate, subject to routine purchasing controls and retention of transaction records.

Written analysis generated 2026-07-31 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	76/100
Identity verification confidence	76%

- Trusted social count=2

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of coindesfilles.fr.

- The request stayed on coindesfilles.fr. It was not redirected to another domain. CLEAR
- Registration is published under OVH. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The registration is paid up to 2027-05-22. NOTED
- The earliest public archive of this site is from 2012-06-25. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about coindesfilles.fr at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
