

Is colamp.com legit? TrustSniffer's high-trust assessment: 100/100

colamp.com

Verdict

100

OUT OF 100

HIGH TRUST

colamp.com appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 50%.

What this site appears to be

Colombiana de Lámparas (Colamp) corporate website describing lighting product lines, company history, contact details (address, phone, hours) and social contacts. Primary purpose: presenting products and enabling customer contact.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

- Public web-archive history exists since 2010.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Colamp is a Colombian corporate website for Colombiana de Lámparas, presenting the design, manufacture, and sale of industrial, commercial, decorative, emergency, and automated lighting products for sectors including education, commerce, industry, and hospitality. Its apparent purpose is to showcase product and project capabilities and facilitate commercial customer contact.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents a coherent corporate manufacturing purpose, while the technical behavior review found no login flow, hidden sensitive forms, wallet activity, cloaking, suspicious scripts, or external posting behavior. Available external reputation checks recorded no malicious or suspicious detections, although coverage was partial; this supports a low apparent scam and impersonation risk without independently proving the operator's real-world identity.

EVIDENCE

- The homepage is classified as a corporate/business page and contains no login form, hidden form, or sensitive data form.
- Observed behavior recorded 2 successful runs, 0 external XHR requests, 0 non-whitelisted external XHR requests, 0 wallet-provider detections, and 0 clipboard-write events.
- The domain was registered on 2006-12-05 and is 19.72 years old; the registrar is ENOM, INC.
- Available external checks recorded 0 malicious results, 0 suspicious results, 0 abuse reports, and no blacklist hit, with partial reputation coverage.

Regulatory Verification Notes

The Nosotros page identifies the business as Colombiana de Lámparas and describes its history and operating services; these are on-site identity claims and should not be treated as independent proof of the legal operator. The site is a lighting manufacturer and seller rather than a business presenting itself as a regulated financial service, and no financial or other regulatory license is claimed. The principal transparency point is that a corporate registration or sector-specific authorization number is not presented; this is a verification gap, not evidence of deception. The available evidence remains consistent with an established, apparently legitimate business website.

EVIDENCE

- The Nosotros page provides the company's stated identity, history, service description, and quality and safety claims.
- The Contact page gives a production-plant address in Medellín, Colombia, a telephone number, and operating hours.
- The site is hosted on AS16276 operated by OVH - OVH SAS, FR.
- The transport certificate uses DV validation, was issued by YR2, and is valid to 2026-10-10T16:13:09+00:00.

What to Verify Next

Before a material commercial engagement, independently match the company identity stated on the site with the applicable Colombian corporate records and confirm any product, commercial, or sector-specific authorizations relevant to the proposed transaction. Contracting parties should also review written warranty, returns, delivery, invoicing, and payment-protection terms and confirm official contact channels through an independent business source.

EVIDENCE

- The Nosotros page is the primary on-site identity disclosure for independent corporate-record matching.
- The Contact page supplies the operational details that can be cross-checked through an independent route.
- The site presents a corporate contact model rather than an online account or sensitive-payment workflow.
- The site links to Facebook, Instagram, and WhatsApp contact channels that can be compared with independently sourced business information.

Summary Verdict

The available evidence is consistent with an established, apparently legitimate, low-risk corporate website. No scam, phishing, impersonation, or identity-contradiction indicators were observed, although the real-world operator identity is not independently verified.

Infrastructure Integrity

The website is protected by CDN/WAF infrastructure, with OVH - OVH SAS, FR identified as the hosting provider on AS16276. Three edge servers and one potential origin candidate were observed; this architecture helps mitigate direct exposure of the service infrastructure but is only a protective control, not proof of legitimacy.

Closing Assessment

Ordinary business engagement is proportionate to the current assessment, subject to standard independent checks of merchant identity, contractual terms, and payment protections before credentials or payment details are exchanged.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	76/100
Identity verification confidence	38%

- Trusted social count=2

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of colamp.com.

- The request stayed on colamp.com. It was not redirected to another domain. [CLEAR](#)
- Registration is published under ENOM, INC.. [CLEAR](#)

- DNS for this domain is served by dongee.com, across 4 name servers. NOTED
- The registration is paid up to 2026-12-05. NOTED
- The earliest public archive of this site is from 2010-01-22. CLEAR
- It is hosted on OVH, from a server in CA. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about colamp.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
