

Is comunicazione-europe.net legit? TrustSniffer's high-trust assessment: 100/100

comunicazione-europe.net

Verdict

100

OUT OF 100

HIGH TRUST

comunicazione-europe.net appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 50%.

What this site appears to be

Small WordPress site for Comunicazione Europe Net, a communications consultancy network focused on EU funding and public procurement. Contains service descriptions, mission, client testimonials, contact address in Berlin and email contact.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2010.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Comunicazione-Europe.net is a small corporate consultancy website presenting Comunicazione Europe Net as a Europe-wide network of communications professionals supporting EU funding, public procurement, communication strategy, and related public- and private-sector projects.

Scam/Impersonation Risk

No contradictions were observed. The homepage and service pages describe a conventional business-to-business consultancy rather than transactional finance, credential collection, or high-pressure conversion activity; testing also found no login form, sensitive form, wallet connection, cloaking, or suspicious external submission. The site's stated identity, content, and observed behavior are consistent with an apparently legitimate consultancy site. Minor browser-side implementation issues were observed, but they were not accompanied by fraud-related behavior and therefore do not materially change the assessment.

EVIDENCE

- The homepage identifies Comunicazione Europe Net as a professional network and describes its mission, expertise, and client-focused work.
- The contact and service pages contain no login or sensitive-data form; behavioral testing recorded 0 external XHR/fetch requests, 0 wallet-connect runs, and 0 hidden forms across 2 successful runs.
- External reputation checks recorded 0 malicious detections, 0 suspicious detections, 0 abuse reports, and no confirmed threat-list or phishing contradiction.
- The domain was registered on 2011-05-09 and is approximately 15.29 years old; historical records span 2010-12-22 to 2026-05-13, covering 17 years.

Regulatory Verification Notes

The site presents a consultancy network and does not claim to provide a regulated financial service, so the absence of a displayed financial license number is best treated as a disclosure point rather than evidence of misconduct. The homepage describes work involving EU funding and public procurement, while the contact page supplies a Berlin address and contact route. Registration records list InterNetX GmbH as registrar and associate the domain with Comunicazione GmbH; this is consistent with an apparent connection to the site but does not independently verify the real-world operator. No broker-reputation match was identified, although that contextual signal is not a licensing or regulatory determination. The generic WordPress page title and limited structured metadata also indicate modest presentation maturity rather than a substantive trust concern.

EVIDENCE

- The homepage and “Our Services” page describe communications consultancy, EU funding expertise, public procurement, project work, and client testimonials.
- The site does not display a license number or regulated-status statement; the business model presented is consultancy-based.
- Registration records identify InterNetX GmbH as registrar and list Comunicazione GmbH as the associated organization.
- The site's TLS certificate was issued by YR1 at DV validation level and is valid through 2026-10-17.

What to Verify Next

Before a prospective engagement, independently confirm that the Berlin contact details and the relationship between Comunicazione Europe Net and Comunicazione GmbH correspond to the contracting entity. For any engagement involving public funds, procurement representation, or payment, confirm the applicable contractual entity, invoicing details, refund or termination terms, and any sector-specific registration requirement through an independent source. Contact channels should also be validated through an independently obtained route before credentials or payment information are exchanged.

EVIDENCE

- The contact page provides the stated Berlin address and the site's direct contact route for entity confirmation.
- The working-areas and services pages define the scope of the proposed consultancy, allowing the contracting activity to be compared with the entity's formal business description.

Summary Verdict

The available evidence supports a high-trust, low-risk posture and is consistent with an established, apparently legitimate website. The operator connection is likely but not independently verified, so the trust conclusion should not be treated as proof of real-world identity.

Infrastructure Integrity

The site is directly hosted on AS198710, UUU-TELECOM-AS - 3U TELECOM GmbH, in Germany, with no CDN detected and one likely origin address identified. This provides an identifiable hosting path, although it does not itself establish legitimacy; an unconfirmed geographic registry-mismatch heuristic was not corroborated by the site's content or threat signals.

EVIDENCE

- Hosting infrastructure is served from AS198710 (UUU-TELECOM-AS - 3U TELECOM GmbH, DE).
- Infrastructure resolution identified 1 unique IP, 0 edge IPs, and 1 likely origin IP.
- No CDN or detected CDN/WAF vendor was identified.

Closing Assessment

Ordinary browsing and business engagement are proportionate to the assessed posture, subject to standard independent confirmation of the contracting entity, contractual terms, and payment protections before sensitive interactions.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	80/100
Identity verification confidence	40%

- Trusted social count=4

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of [comunicazione-europe.net](#).

- The request stayed on [comunicazione-europe.net](#). It was not redirected to another domain. CLEAR
- Registration is published under InterNetX GmbH. CLEAR
- DNS for this domain is served by [serverpool.net](#), across 2 name servers. NOTED
- The registration is paid up to 2027-05-09. NOTED
- The earliest public archive of this site is from 2010-12-22. CLEAR
- It is hosted on UUU-TELECOM-AS, from a server in DE. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about [comunicazione-europe.net](#) at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
