What consejoabogaciaaragonesa.es served when TrustSniffer captured it on 2026-08-20. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2019.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Overview

The website at consejoabogaciaaragonesa.es presents itself as the informational website of the Consejo de Colegios de Abogados de Aragón, offering organizational information, privacy and cookie notices, contact details for regional bar associations, and legal or professional resources rather than commercial products or financial services.

Scam/Impersonation Risk

The site's visible content is consistent with a professional association: it contains no login form, sensitive-data form, financial solicitation, cryptocurrency functionality, or apparent brand-impersonation indicators. However, this benign presentation is outweighed by confirmed external threat signals: the domain is recorded on external blacklists and received multiple malicious classifications. This creates a material risk for sensitive interaction despite the absence of an obvious phishing mechanism on the reviewed pages. No identity inconsistency, phishing indicator, or direct brand-impersonation finding was observed in the page content. The domain's historical and registration signals provide continuity, but they do not neutralize the external threat detections. Evidence:

- External reputation telemetry recorded 4 malicious detections and 1 suspicious detection across 5 evaluated results, with the domain also listed on external blacklists.
- The homepage is titled “Consejo de Colegios de Abogados de Aragón – Consejo de abogados de Aragón” and contains approximately 8,867 characters of organizational, policy, and contact content; no login or sensitive form was detected.
- Registration continuity indicates a domain age of 7.003422313483915 years; archived records in the historical analysis contain 37 snapshots from 2019 through 2025.

Regulatory Verification Notes

The site presents an apparent regional legal-professional association and publishes organizational descriptions, addresses, telephone numbers, privacy information, cookie controls, and contact details. Those disclosures support the apparent business purpose but do not independently verify the real-world operator or establish that the domain is formally authorized to represent the named council. No financial license or registration number is claimed in the supplied site evidence; this is a disclosure point requiring independent confirmation, not by itself proof of fraud. The available identity and governance information remains insufficiently verified, and the confirmed external blacklist status materially limits reliance on the site for sensitive activity. Evidence:

- The homepage describes the council and its functions and provides contact information for regional bar associations.
- The site’s legal and privacy content includes cookie-consent details, privacy information, and transparency-related material, but no independently verified operator identity or licensing reference is recorded.
- Hosting is identified as EFOR – Efor Global Technology SL, ES, on AS44585.
- The site’s transport encryption uses a DV certificate issued by YR1, valid to 2026-10-17T12:55:53+00:00.

What to Verify Next

An independent source should confirm that the domain is an official web address for the Consejo de Colegios de Abogados de Aragón, using contact details obtained from a separate public directory or an offline institutional channel rather than relying solely on the website. The relevant regional bar associations should confirm the site’s operator, published telephone numbers, and any intended online services. Until those checks are complete and the external threat status is resolved, sensitive interaction should remain suspended.

EVIDENCE

- The site itself supplies regional bar-association addresses and telephone numbers that can be cross-checked through independently obtained institutional records.
- The reviewed pages contain privacy, cookie, organizational, and contact material suitable for comparison with authoritative public information.
- Behavioral testing completed 2 successful runs and detected no wallet connection, wallet provider, hidden form, or external password form.

Summary Verdict

The overall posture is critical and unsuitable for reliance in sensitive interactions. The site has a credible-looking informational presentation, but that appearance does not overcome the confirmed external threat and blacklist signals or the unresolved independent identity question.

Infrastructure Integrity

The domain resolves directly to a single identified hosting address rather than through a detected CDN or WAF edge, with infrastructure located in Spain and operated by EFOR – Efor Global Technology SL on AS44585. The valid DV TLS certificate protects the connection in transit, but hosting and encryption are infrastructure characteristics only and do not establish site legitimacy.

Closing Assessment

The appropriate operational posture is read-only observation pending independent institutional confirmation; account login, credential submission, and financial activity should not be performed through the site.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, external reputation.

- 01 Governance Risk

 - The public registration record for this domain is incomplete.
Registration and ownership rule:KF_WHOIS_INCOMPLETE
- 02 Sensitive Interaction Risk

 - The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
 - An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of consejoabogaciaaragonesa.es.

- The request stayed on consejoabogaciaaragonesa.es. It was not redirected to another domain. CLEAR
- The earliest public archive of this site is from 2019-08-18. CLEAR
- It is hosted on EFOR, from a server in ES. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about consejoabogaciaaragonesa.es at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
