Full analysis

Overview

Contempo Online is an established fashion e-commerce storefront presenting clothing, denim, accessories, sale items, rewards, gift cards, store information, customer accounts, and newsletter registration for direct-to-consumer retail.

Scam/Impersonation Risk

No contradictions, phishing indicators, brand impersonation, or confirmed blacklist findings were observed. The site presents a coherent apparel-retail model with ordinary shopping, account, rewards, and newsletter functions; its content contains no deceptive financial offers or other fraud signals. Its sustained domain history and clean reputation support the conclusion that it is a legitimate established retailer.

- The homepage presents clothing, denim, accessories, sale products, rewards, gift cards, stores, and customer accounts.
- The domain was registered on 2016-10-03 and is approximately 9.83 years old.
- The archive contains 84 snapshots spanning 2017–2026, covering 10 tracked years.
- Reputation checks recorded 0 malicious and 0 suspicious detections, with no blacklist hit.

Regulatory Verification Notes

The site operates as a conventional fashion retailer rather than a regulated financial service. No financial license claim or license number is presented in the available material; this is a limited disclosure point, not evidence of deception. The overall identity and infrastructure indicators remain consistent with an established commercial website.

- The site identifies its business model as direct-to-consumer clothing and accessories retail.
- Domain registration lists Afrihost as registrar.
- The site is hosted on AS13335, operated by Cloudflare, Inc., in the United States.
- TLS is issued by WE1 at DV validation level and is valid through 2026-09-18.

What to Verify Next

For procurement or higher-value commercial engagement, independently confirm the retailer's legal trading details and customer-support channels through the site's store and policy information, and retain normal transaction records.

- The homepage provides store information and customer-service navigation.

- The storefront exposes account creation, login, checkout, rewards, gift-card, credit, and lay-by functions.
- The site completed two successful behavioral evaluations without hidden forms, wallet activity, cloaking, or suspicious scripts.

Summary Verdict

The website presents a high-trust posture consistent with a legitimate, established online retailer. Normal interaction, including account login, checkout, and standard account use, is appropriate.

Infrastructure Integrity

Cloudflare CDN/WAF protection fronts the site, with all four observed addresses assigned to Cloudflare edge infrastructure and no origin candidate identified. This reduces direct exposure of the origin and is a mitigating infrastructure characteristic, not independent proof of legitimacy.

Closing Assessment

Standard browsing, account use, and purchases are appropriate, subject to ordinary commercial recordkeeping and transaction controls.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about contemposhop.co.za at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
