Key findings

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- No flags from the reputation services TrustSniffer consulted at assessment time.
- The operator behind the site could not be independently connected to a real-world brand or person.

Full analysis

Overview

Contrada Capital is a Russian asset-management website presenting mutual investment funds, securities and portfolio management, real-estate investment products, securitization services, reporting, legal information, and investment-risk disclosures for prospective and existing clients.

Scam/Impersonation Risk

No contradictions were observed. The site presents a coherent corporate financial-services identity, with no detected phishing, impersonation, malicious behavior, or suspicious external reputation indicators. Normal interaction, including account login and standard use, is therefore appropriate.

- The homepage is classified as a corporate financial-services site and shows no hidden forms, password-exfiltration destinations, wallet-drainer behavior, or cloaking.
- External reputation checks recorded 0 malicious detections, 0 suspicious detections, and no phishing or impersonation flag.
- The site's observed behavior completed 2 successful runs with 0 console errors and 0 hidden forms.

Regulatory Verification Notes

The legal and information sections provide company details, reporting, fund documentation, disclosure materials, and explicit warnings that investment returns are market-dependent and not guaranteed. The site also presents a dedicated licenses section, but the supplied evidence does not establish an independently verified license number or regulator; this is a verification matter rather than evidence of deception. No corresponding third-party broker profile was identified.

- The homepage navigation includes licenses, company requisites, reporting, conflict-of-interest, FATCA/CRS, data-protection, and client-information sections.
- The business model covers mutual funds, real-estate funds, securities portfolios, trust management, and securitization.
- Registered 2022-04-20 through RU-CENTER-RU; domain age 4.28 years.
- TLS is DV-validated, issued by GlobalSign GCC R3 DV TLS CA 2020, valid to 2027-03-20.

What to Verify Next

A prospective counterparty should cross-check the license details on the site's licenses page against the relevant official registry and confirm the legal entity through the published company-requisites page. Investment

suitability, fee terms, and non-guaranteed-return language should also be reviewed before committing capital.

- The licenses page is available within the site's corporate-information navigation for independent registry comparison.
- The company-requisites and reporting pages provide the appropriate materials for entity and disclosure review.
- The site's product and risk-information pages expressly identify market-dependent returns.

Summary Verdict

The website presents as a legitimate, established, and trustworthy financial-services entity with a coherent identity, substantial substantive content, clean observed behavior, and no contradictory risk signals. Its high-trust posture supports normal website interaction and standard account use.

Infrastructure Integrity

The site resolves to AS51115, HLL-AS – HLL LLC, in Russia, with one identifiable host and no CDN or WAF edge detected. The direct hosting arrangement is a neutral infrastructure characteristic and does not undermine the otherwise positive assessment.

Closing Assessment

Normal interaction is appropriate; prospective investors should apply their usual institutional suitability, authorization, and transaction controls before committing funds.

Written analysis generated 2026-08-02 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of contrada-capital.ru.

- The request stayed on contrada-capital.ru. It was not redirected to another domain. CLEAR
- Registration is published under RU-CENTER-RU. CLEAR
- DNS for this domain is served by ru., across 5 name servers. NOTED
- The registration is paid up to 2027-04-20. NOTED
- It is hosted on HLL-AS, from a server in RU. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about [contrada-capital.ru](#) at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
