

Is coronacapital.com.mx legit? TrustSniffer's high-trust assessment: 100/100

coronacapital.com.mx

Verdict

100

OUT OF 100

HIGH TRUST

coronacapital.com.mx appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-07-31 by automated analysis. Classification confidence 55%.

What this site appears to be

Official-looking promotional page for the Corona Capital CDMX music festival at Autódromo Hermanos Rodríguez, featuring ticket, lineup, venue, transportation, and FAQ navigation. It includes a basic newsletter form, OCESA legal disclosures, privacy and terms links, social-navigation placeholders, and granular cookie-consent controls.

Evidence status and limitations

Evidence completeness: UNKNOWN

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- No flags from the reputation services TrustSniffer consulted at assessment time.
- The operator behind the site could not be independently connected to a real-world brand or person.

Full analysis

Overview

The website is an established promotional and ticketing portal for the Corona Capital CDMX music festival, presenting event dates, lineup information, club passes, venue and transportation guidance, and newsletter registration for an event at Autódromo Hermanos Rodríguez.

Scam/Impersonation Risk

No identity contradictions, phishing indicators, brand impersonation, or other deceptive financial mechanics were observed. The site's long-established domain, coherent festival-focused content, and clean external threat reputation converge strongly in support of authenticity. Interactive testing found no hidden forms, credential-harvesting behavior, cloaking, clipboard manipulation, or wallet-related activity.

- Domain registration records show creation on 25 June 2010, making the domain approximately 16.11 years old; registration is maintained through GoDaddy Corporate Domains, LLC.
- The homepage consistently identifies the service as the Corona Capital CDMX music-festival site and provides event-specific navigation for the lineup, tickets, venue access, transportation, and permitted items.
- External reputation checks recorded 0 malicious and 0 suspicious detections, no malicious safe-browsing classification, and no reported abuse against the assessed delivery address.
- Behavioral examination of the homepage found one newsletter form, with no password form, hidden form, untrusted form destination, suspicious inline script, or cloaking.

Regulatory Verification Notes

The site identifies Operadora de Centros de Espectáculos, S.A. de C.V. (OCESA) as the entity governing newsletter registration and connects that collection to privacy and contractual notices. It also provides legal, privacy, terms, accessibility, and granular cookie-control interfaces. As an event-promotion and ticketing service rather than a represented financial or investment business, the absence of financial licensing claims is consistent with its stated function and does not create a regulatory concern.

- The homepage states that newsletter registration is subject to OCESA's privacy notice and terms and conditions.
- The footer provides dedicated legal, terms-and-conditions, privacy-notice, and accessibility entries.
- The cookie-preference interface permits acceptance, rejection, and category-level management of functional, performance, and advertising technologies.

- The site's transport encryption uses a DV certificate issued by GlobalSign Atlas R3 DV TLS CA 2025 Q4, valid until 21 January 2027.

What to Verify Next

For payment-related activity, the ticket checkout destination and merchant identity should be confirmed as matching the event's designated sales channel before purchase. Prospective attendees should also review the applicable ticket conditions, refund terms, event-access rules, and privacy notice, particularly where a transaction or marketing subscription redirects to a separate service.

- The homepage distinguishes ticket and club-pass navigation from general festival-information sections.
- Venue-planning material includes location, flights and transportation, parking, and dedicated travel-service options.
- Newsletter enrollment requests a first name and email address and expressly links enrollment to the applicable privacy and contractual terms.

Summary Verdict

The website is legitimate, established, and trustworthy. Its coherent commercial identity, mature domain provenance, clean threat reputation, healthy interaction behavior, and substantive legal framework provide strong, mutually reinforcing evidence that normal interaction—including account login and standard use—is appropriate.

Infrastructure Integrity

The site is protected by Fastly CDN/WAF infrastructure, and all four observed addresses were edge servers; this reduces direct exposure of the origin environment but is a security mitigation rather than independent proof of legitimacy.

- The hosting infrastructure serves the site from AS54113 (Fastly, Inc., US).
- Four Fastly edge addresses were observed, with no origin-server candidate exposed during the assessment.

Closing Assessment

Prospective users may engage with the website normally, while applying standard transaction hygiene by confirming checkout details and retaining purchase documentation.

Written analysis generated 2026-07-31 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of coronacapital.com.mx.

- The request stayed on coronacapital.com.mx. It was not redirected to another domain. CLEAR
- Registration is published under GoDaddy Corporate Domains, LLC. CLEAR
- DNS for this domain is served by gcd-dns.com, across 2 name servers. NOTED
- The registration is paid up to 2027-06-24. NOTED
- It is hosted on FASTLY, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about coronacapital.com.mx at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
