Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2023.
- VirusTotal and Google Safe Browsing had no flags for this domain; its hosting IP carries AbuseIPDB reports below the confidence level TrustSniffer treats as a flag.

Full analysis

Overview

CarTrawler's corporate website presents an established B2B technology provider connecting travel brands, airlines, car-rental suppliers, and mobility providers through its Connect Platform, with a business model based on commercial partnerships and platform services.

Scam/Impersonation Risk

No scam, phishing, impersonation, or identity contradiction was observed. The site describes a coherent B2B model involving marketplace distribution, mobility, insurtech, revenue, loyalty, payments, and related Connect Platform services rather than consumer investment or financial-return opportunities. Its corporate navigation, substantive service descriptions, and absence of login forms, wallet functions, or deceptive financial claims support a legitimate operating profile.

- The homepage describes CarTrawler's Connect Platform and its B2B travel, mobility, supplier, revenue, loyalty, care, and payments functions.
- The analyzed domain was registered in 2005 and is approximately 21.09 years old.
- Web archives contain 8 snapshots spanning 2023–2024, covering 2 tracked years.
- Page analysis found no red flags, phishing indicators, or sensitive forms.

Regulatory Verification Notes

The site provides corporate, leadership, sustainability, partnership, contact, help-centre, and legal-policy content consistent with an established technology company. No financial-services license or registration number is presented in the reviewed material; this is a transparency item for any regulated activity, not evidence of misconduct. External reputation checks found no malicious or phishing designation, and no broker-reputation match was identified.

- The site's transport certificate identifies ETRAWLER UNLIMITED COMPANY as the subject organization.
- Observed server telemetry identifies AS209242, CLOUDFLARESPECTRUM – Cloudflare London, LLC, US.
- TLS is issued by Sectigo Public Server Authentication CA OV R36 at OV validation level, valid through 2027-02-20.
- The domain registrar is Register.com – Network Solutions, LLC.

What to Verify Next

- For formal procurement or regulated partnerships, confirm the contracting entity and applicable licensing requirements through the site’s corporate and legal pages and the relevant official registry. Commercial counterparties should also use the published corporate contact and support channels when validating onboarding or contractual instructions.
- The About Us, Leadership, and partnership pages identify the organization’s corporate operating context.
 - Legal-policy and contact materials provide the relevant starting points for entity and contractual verification.
 - The supplier and partner sections describe the intended commercial relationship model.

Summary Verdict

The evidence supports a legitimate, established, and trustworthy corporate website with a coherent business purpose and no observed scam or impersonation contradiction. Normal interaction, including account login and standard use, is appropriate.

Infrastructure Integrity

The site is protected by AWS CDN/WAF infrastructure, with observed edge service on AS16509; all observed IPs were CDN edges and no origin candidate was identified. This reduces direct origin exposure and is a mitigating infrastructure characteristic, but it is not independently proof of legitimacy.

Closing Assessment

Prospective users may proceed with normal business, account, and standard transaction workflows while applying ordinary enterprise controls for commercial engagements.

Written analysis generated 2026-08-02 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of corporate.cartrawler.com.

- The request stayed on corporate.cartrawler.com. It was not redirected to another domain. CLEAR
- Registration is published under Register.com - Network Solutions, LLC. CLEAR
- DNS for this domain is served by nsone.net, across 8 name servers. NOTED
- The registration is paid up to 2027-07-04. NOTED

- The earliest public archive of this site is from 2023-10-16. CLEAR
- It is hosted on CLOUDFLARESPECTRUM, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about corporate.cartrawler.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
