

Is corporativosirn.com a scam? TrustSniffer's high-risk assessment:  
0/100

corporativosirn.com

Verdict

0

OUT OF 100

CRITICAL RISK

corporativosirn.com shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 55%.

What this site appears to be

Corporate site for Corporativo SIRN offering engineering and sustainable resource solutions (water, energy, construction, food safety) with contact details and physical address in Puebla, Mexico.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
  - Module-level completeness metadata is unavailable for this legacy report.

## The page as captured

<https://corporativosirn.com/>

What corporativosirn.com served when TrustSniffer captured it on 2026-08-20. The page may look different now.

## Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2018.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

## Full analysis

### Security Alert

Kaspersky, Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

Corporativo SIRN is a corporate services website presenting engineering and sustainable natural-resource solutions, including water treatment and utilization, energy, construction, food safety, and related consulting or implementation work for clients in Mexico.

### Scam/Impersonation Risk

The site presents a coherent corporate profile, contact details, a Puebla address, and no observed login, payment, cryptocurrency, or sensitive-data collection mechanism. Its stated business model is therefore not inherently suspicious, and no identity contradiction, brand impersonation, or phishing behavior was identified in the visible page content. However, this benign presentation is materially outweighed by confirmed external threat detections and blacklist listings for the domain, including malicious classifications from multiple security providers. The website should consequently be treated as presenting a **critical sensitive-interaction risk**, notwithstanding the absence of obvious abuse mechanics during the observed browsing session. No suspicious contact-email anomaly was identified in the supplied evidence.

#### EVIDENCE

- The homepage presents Corporativo SIRN as an engineering and sustainable-resources business with water, energy, construction, and food-safety services.
- The observed page contained no login form, hidden form, password submission, wallet connection, or external sensitive form.
- External reputation telemetry recorded 17 malicious detections from 22 effective evaluations, with Kaspersky and Sophos among the flagged vendors, and confirmed blacklist status from two sources.
- The domain was registered on 2016-12-31 and is approximately 9.64 years old; available archival coverage spans 2018-08-06 through 2026-02-24 across 9 tracked years, with incomplete archival coverage rather than evidence of a recent repurpose.

#### Regulatory Verification Notes

The site identifies itself as Corporativo SIRN and presents a physical location and telephone contact, while registration data associates the domain with Vladimir Escalante and Corporativo SIRN through PDR Ltd. d/b/a PublicDomainRegistry.com. These details support a plausible corporate identity but do not independently verify the operator or establish that the website is authorized to provide any regulated service. No license claim, licensing authority, or license number is recorded in the supplied site analysis, leaving a material disclosure gap for any engagement involving regulated engineering, environmental, construction, energy, or public-sector work. The absence of a broker-dataset match provides no positive or negative legal conclusion.

#### EVIDENCE

- Registration records list registrar PDR Ltd. d/b/a PublicDomainRegistry.com and the registrant organization as Corporativo SIRN.
- The homepage and contact content identify a Puebla, Mexico location and provide the telephone number 01 (222) 155 0594.
- The site analysis records no claimed license, licensing authority, or license number.
- The site's transport encryption is a DV certificate issued by YR2, valid through 2026-10-15T10:24:39+00:00.

#### What to Verify Next

Before any business engagement, the prospective counterparty should independently confirm Corporativo SIRN's legal existence, the authority of the named representative, and any sector-specific registrations or professional authorizations with the relevant Mexican corporate and regulatory registries. Contracting parties should validate the Puebla address and telephone channel through an independently sourced business record, obtain references and project documentation through offline or separately verified channels, and require contract, invoice, and payment details to correspond to the verified legal entity. Until those checks are complete, interaction should remain informational and non-sensitive.

## EVIDENCE

- The homepage displayed a corporate-services presentation but contained no structured legal or licensing disclosure in the captured content.
- The observed browsing sessions completed successfully without external posts, sensitive-form submissions, or wallet-related activity.
- Page authority data was low, so the site's own corporate presentation should not be treated as independent corroboration.
- Hosting resolved to Google LLC infrastructure in the United States, providing a technical hosting fact but not independent evidence of corporate authorization.

## Summary Verdict

The website's visible content is consistent with a conventional engineering-services business, but the available evidence does not establish a trustworthy basis for sensitive engagement. Confirmed malicious detections and blacklist status control the assessment, resulting in a critical risk posture and unverified real-world operator identity.

## Infrastructure Integrity

The site is hosted on Google Cloud infrastructure associated with AS15169, with no CDN detected in the supplied resolution facts. Its valid DV TLS certificate protects transport confidentiality, but Google hosting and certificate validity are infrastructure characteristics only and do not offset the external reputation findings.

## Closing Assessment

Passive viewing may be retained for preliminary information gathering, but credentials, account access, confidential documents, contractual commitments, and financial transactions should not proceed unless the operator and business relationship have been independently validated.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

## What the analysis found

1 finding contributed to this verdict, raised by analysis engine, external reputation.

### 01 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.  
Analysis engine signal:direct\_threat
- An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.

External reputation rule:EXT\_BLACKLIST\_CRITICAL

## Identity verification

|                |            |
|----------------|------------|
| Status         | UNVERIFIED |
| Identity score | 30/100     |

|                                  |     |
|----------------------------------|-----|
| Identity verification confidence | 50% |
|----------------------------------|-----|

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

### What TrustSniffer observed

First-party facts recorded during the assessment of corporativosirn.com.

- The request stayed on corporativosirn.com. It was not redirected to another domain. CLEAR
- Registration is published under PDR Ltd. d/b/a PublicDomainRegistry.com. CLEAR
- DNS for this domain is served by siteground.net, across 2 name servers. NOTED
- The registration is paid up to 2026-12-31. NOTED
- The earliest public archive of this site is from 2018-08-06. CLEAR
- It is hosted on GOOGLE, from a server in US. NOTED

### About this assessment

A trust score summarises the evidence TrustSniffer could collect about corporativosirn.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
