

Is cortinadevidrobh.com.br a scam? TrustSniffer's high-risk assessment: 0/100

cortinadevidrobh.com.br

Verdict

0

OUT OF 100

CRITICAL RISK

cortinadevidrobh.com.br shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-19 by automated analysis. Classification confidence 75%.

What this site appears to be

Portuguese-language site for a local glassworks company (cortinadevidrobh). Provides service descriptions, contact phone/WhatsApp for quotes, and a list of offered services (envidraçamento, manutenção, box de banheiro, etc.). No evident e-commerce cart or online payments; primary call-to-action is contacting by WhatsApp/phone.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

What cortinadevidrobh.com.br served when TrustSniffer captured it on 2026-08-19. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2021.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Fortinet, Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

The website is a Portuguese-language local glassworks business serving customers seeking glass-curtain glazing, installation, maintenance, windows, doors, aluminium frames, bathroom shower enclosures, sealing, and related services. Its apparent business model is quotation-led sales and service delivery, with customer acquisition through telephone and WhatsApp rather than an online checkout.

Scam/Impersonation Risk

The site's business presentation is consistent with a local trades service and the available page content contains no evident login form, payment flow, phishing form, or brand-impersonation indicator. However, this benign presentation is materially contradicted by confirmed blacklist status and external malicious detections, including detections attributed to Fortinet and Sophos. Those signals establish a critical sensitive-interaction risk even

though the website itself does not display an obvious abuse pattern; the site should therefore be treated as potentially compromised, misclassified, or unsafe for credential and financial activity. Evidence:

- The homepage presents local glassworks services and quotation requests, with no evident e-commerce cart, online payment form, or login mechanism.
- Domain registration records show registration on 2018-10-12, with an age of 7.86 years and expiry on 2029-10-12.
- Archive records contain 394 snapshots spanning 2021–2026, covering 6 tracked years with a maximum gap of 1 year.
- External reputation telemetry records 12 malicious and 2 suspicious detections, with Fortinet and Sophos among the flagged vendors; blacklist status is confirmed by two external sources.

Regulatory Verification Notes

The real-world operator identity remains unverified by the available evidence. The site content does not present a licensing claim, license number, or registration number, so its corporate status and any applicable trade or construction authorizations cannot be established from the website. This is a regulatory-verification gap rather than, by itself, proof of fraud; nevertheless, the confirmed external reputation issue makes independent identity and authorization checks essential before engagement. Evidence:

- The available business content does not state a legal entity name, license authority, or license number.
- The site's TLS certificate is domain-validated and was issued by YE1, with validity through 2026-10-16.
- Page content is service-oriented and identifies the business category as local glassworks/home improvement rather than a regulated financial or investment service.

What to Verify Next

An independent check should confirm the operating business through the relevant Brazilian corporate and municipal records, establish that the telephone and WhatsApp channels belong to that business, and obtain a written quotation identifying the contracting entity, address, warranty terms, and payment recipient. Any deposit or advance payment should use a method offering appropriate dispute or chargeback protection, and sensitive interaction should remain suspended until the external detections are resolved by a trusted security process. Evidence:

- The homepage's primary conversion path is quotation contact by telephone or WhatsApp rather than an online payment workflow.
- The site has no sensitive form or login form in the observed page content.
- Behavioral testing recorded no hidden forms, wallet-connect activity, clipboard manipulation, or cloaking.

Summary Verdict

The overall posture is **critical sensitive-interaction risk**. The site appears to describe a plausible local service business, but that apparent legitimacy is outweighed by confirmed external threat and blacklist contradictions, while the operator's identity remains unverified.

Infrastructure Integrity

The site resolves through AS47583, operated by AS-HOSTINGER / Hostinger International Limited, with infrastructure registered in the RIPE NCC region and located in Ukraine. Four likely origin IP addresses were

identified, no CDN edge IPs were detected, and no CDN vendor was identified; this provides no independent legitimacy assurance and does not mitigate the external reputation concern.

Closing Assessment

Passive viewing may be retained for information gathering, but login, credential submission, financial transactions, and other sensitive actions should not proceed until independent business validation and resolution of the security detections are completed.

Written analysis generated 2026-08-19 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, external reputation.

01 Governance Risk

- The public registration record for this domain is incomplete.

Registration and ownership rule:KF_WHOIS_INCOMPLETE

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
- An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.

Analysis engine signal:direct_threat

External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of cortinadevidrobh.com.br.

- The request stayed on cortinadevidrobh.com.br. It was not redirected to another domain. CLEAR
- DNS for this domain is served by dns-parking.com, across 2 name servers. NOTED
- The registration is paid up to 2029-10-12. CLEAR
- The earliest public archive of this site is from 2021-09-29. CLEAR
- It is hosted on AS-HOSTINGER, from a server in UA. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about cortinadevidrobh.com.br at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
