

Is cosemevents.com a scam? TrustSniffer's high-risk assessment: 0/100

cosemevents.com

Verdict

0

OUT OF 100

CRITICAL RISK

cosemevents.com shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 55%.

What this site appears to be	Business homepage for COS Events Management, a staffing company offering bartenders, waiters, cooks, and supervisors in the MD/DC/VA area. Includes services, contact details (address, phone, email), and links for requesting services or applying to work.
------------------------------	---

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

What cosemevents.com served when TrustSniffer captured it on 2026-08-21. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2021.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Fortinet, Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

COS Events Management is a local event-staffing website presenting waiter, bartender, cook, and supervisor services for events in Maryland, Washington, DC, and Virginia. Its apparent business model is to arrange staffing services for customers and provide pathways to request services or apply for work.

Scam/Impersonation Risk

The site's pages present a coherent local staffing business, with no detected deceptive financial claims, crypto functionality, login form, hidden form, or sensitive submission mechanism. However, this benign presentation is materially contradicted by confirmed blacklist findings and multiple external malicious detections, including detections from major security vendors; the available assessment therefore treats the domain as unsuitable for sensitive interaction. A separate abuse report concerns a shared Liquid Web provider IP rather than the website specifically and is discounted for that reason, but it does not offset the domain-level detections. No conflicting legal-entity names or direct brand-impersonation indicators were observed. Evidence:

- Homepage: describes COS Events Management as an event-staffing company serving Maryland, DC, and Virginia, with no observed deceptive or financial-gain claims.
- Homepage and linked forms: no login form, hidden form, wallet connection, or sensitive form was detected.
- External reputation evidence: 10 malicious detections and 1 suspicious detection were recorded, with the domain also listed by external blacklist sources.
- Domain registration: registered 2019-05-21 and approximately 7.25 years old; the recorded archive period is 2021-11-30 through 2026-06-07, covering 6 years tracked.

Regulatory Verification Notes

The About and Contact content identifies the business as COS Events Management LLC and provides a physical address and telephone contact, but independent connection of the website to a real-world operator is not verified. The reviewed pages do not present a license claim or license number; for an event-staffing business, the significance of any licensing requirement depends on the applicable jurisdiction and service arrangement. This is a disclosure point for verification, not independent evidence of fraud. No matching third-party broker profile was identified. Evidence:

- About page: describes the company as providing staffing services and states that it has operated for more than 15 years.
- Contact page: provides a business address and telephone contact for COS Events Management LLC.
- Registration record: registrar is 1API GmbH; expiration is 2027-05-21.
- Hosting and transport: served from AS32244 (Liquid Web, L.L.C.); TLS certificate issued by YR1 at DV validation level, valid to 2026-10-05.

What to Verify Next

Before any employment, service-contract, or payment interaction, an independent party should confirm the operating entity and stated business address through an offline or independently sourced channel. Any licensing, staffing, insurance, tax, or employment requirements applicable to the proposed engagement should be checked with the relevant Maryland, DC, or Virginia authority. Contact channels and payment instructions should be validated independently, and sensitive submissions should remain suspended unless the external detection and blacklist findings have been resolved and the domain's status has been re-evaluated. Evidence:

- About and Contact pages: provide the identity and operating-location claims requiring independent confirmation.
- Services, Request Our Services, and Apply to Work pages: define the customer and applicant interaction points that should be validated before engagement.
- Technical assessment: the site responded successfully during testing and exhibited no observed hidden forms or credential-capture behavior, but these observations do not resolve the external reputation contradiction.

Summary Verdict

The overall posture is **critical risk for sensitive interaction**. Although the site's content is consistent with a conventional local staffing business, the confirmed blacklist status and external malicious detections take precedence, while the real-world operator remains unverified.

Infrastructure Integrity

The website resolves directly to one likely origin address on AS32244, operated by Liquid Web, L.L.C. No CDN or WAF was detected, so there is no identified edge-protection layer mitigating direct origin exposure; the valid DV TLS certificate protects transport confidentiality but does not establish operator legitimacy.

Closing Assessment

Passive review may be retained for reference, but login, credential submission, financial activity, employment onboarding, and contractual engagement should remain suspended pending independent identity confirmation and resolution of the domain-level security detections.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, external reputation.

- 01 Governance Risk

 - Registration details are held behind a privacy service, so no operator is named publicly. This is common and legal, and it also means there is nobody to check.
Registration and ownership rule:KF_WHOIS_PRIVATE
 - The registration record withholds contact details for the operator.
Registration and ownership rule:KF_WHOIS_HIDDEN
- 02 Sensitive Interaction Risk

 - The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
 - An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Signals weighed against the site

- AbuseIPDB: 1 report on hosting IP 72.52.176.233 (Liquid Web, L.L.C, Data Center/Web Hosting/Transit), 0% confidence. The reports are attributed to shared infrastructure, not specifically to this website.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of cosemevents.com.

- The request stayed on cosemevents.com. It was not redirected to another domain. CLEAR
- Registration is published under 1API GmbH. CLEAR
- DNS for this domain is served by cyberglobalnet.net, across 2 name servers. NOTED
- The registration is paid up to 2027-05-21. NOTED
- The earliest public archive of this site is from 2021-11-30. CLEAR
- It is hosted on LIQUIDWEB, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about cosemevents.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
