The page as captured

<https://cprofsv.com/>

What cprofsv.com served when TrustSniffer captured it on 2026-08-20. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: less than 1 year (registration continuity).
- Public web-archive history exists since 2021.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Fortinet, Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

This website presents itself as CPROF S.A. de C.V., a professional-services firm offering auditing, accounting, legal, tax, consulting, training, and recruitment services to business clients. Its apparent operating model is informational corporate marketing, with client engagements generated through service descriptions, team information, office details, and a contact form.

Scam/Impersonation Risk

The site's professional presentation is contradicted by material external security signals. The domain is recorded as blacklisted, and multiple external security detections classify it as malicious, including 11 malicious detections and one suspicious detection; this is the decisive risk indicator despite the absence of an identified brand-impersonation or identity-conflict finding in the page analysis. The homepage itself contains substantial business content, no login form, and no wallet or credential-collection behavior, but those benign page characteristics do not neutralize the external threat detections. No suspicious contact-email anomaly was reported.

EVIDENCE

- The external reputation assessment records the domain as blacklisted and reports 11 malicious and 1 suspicious detections.
- The homepage was classified as a corporate/professional-services page with no detected brand impersonation, hidden form, login form, wallet connection, or credential-collection behavior.
- The domain registration artifact records creation on 2025-09-13, with an age of approximately 0.93 years.

Regulatory Verification Notes

The legal and identity presentation is centered on the name CPROF S.A. de C.V. and describes auditing, accounting, legal, tax, training, and recruitment services. The supplied material does not show a claimed license, licensing authority, or license number, so the regulatory status of the offered professional services remains unverified rather than established. The site's real-world operator is also not independently verified. No broker-dataset match was identified; that absence is contextual only and is not a licensing or regulatory determination.

EVIDENCE

- The homepage identifies "CPROF S.A. de C.V." and presents services including external and internal audit, accounting, legal advisory, fiscal compliance, training, and recruitment.
- The supplied business-model record shows no claimed license, licensing authority, or license number.
- The domain is registered through Hosting Concepts B.V. d/b/a Registrar.eu; the registrant is listed as Whois Privacy Protection Foundation.
- The site's transport encryption is a DV certificate issued by YE2, valid to 2026-10-21.

What to Verify Next

Before any sensitive engagement, an independent offline channel should confirm that CPROF S.A. de C.V. operates from the stated office and that the published contact routes belong to that entity. Any audit, legal, tax, or recruitment mandate should be validated against the relevant professional or corporate registry, including the responsible practitioners and applicable authorization. Credentials, confidential documents, payment details, and financial transfers should not be submitted until those checks and the external security warning have been resolved.

EVIDENCE

- The contact page provides office information and a contact form but does not, in the supplied material, independently establish the operator's identity.
- The services pages describe regulated or professionally consequential activities, including auditing, legal advice, and fiscal compliance.
- The page behavior assessment found one contact form and no sensitive form, login form, or untrusted form destination.

Summary Verdict

The overall posture is **critical risk**. The site's credible-looking corporate content is outweighed by confirmed blacklist status and convergent malicious security detections, while the operating identity and regulatory standing remain unverified. Sensitive interaction is not supported by the available evidence.

Infrastructure Integrity

The site resolves directly to four likely origin addresses, with no CDN detected; the observed infrastructure is hosted on AS-HOSTINGER / Hostinger International Limited in Ukraine. The hosting environment is a mitigating technical fact only and provides no basis to override the adverse reputation findings.

EVIDENCE

- Hosted on AS47583 (AS-HOSTINGER - Hostinger International Limited, CY), with observed server IP 92.113.16.127 in UA.
- Infrastructure resolution identified 4 unique IPs, 0 edge IPs, and 4 likely origin IPs; no CDN was detected.
- The site's TLS certificate is DV, issued by YE2, and valid to 2026-10-21T21:28:57+00:00.

Closing Assessment

The appropriate institutional response is to suspend sensitive interaction and require independent identity, authorization, and security validation before any credential submission, confidential-data exchange, payment, or financial engagement.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, external reputation.

01 Governance Risk

- The registration record withholds contact details for the operator.
Registration and ownership rule:KF_WHOIS_HIDDEN
- Registration details are held behind a privacy service, so no operator is named publicly. This is common and legal, and it also means there is nobody to check.
Registration and ownership rule:KF_WHOIS_PRIVATE

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
- An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of cprofsv.com.

- The request stayed on cprofsv.com. It was not redirected to another domain. CLEAR
- Registration is published under Hosting Concepts B.V. d/b/a Registrar.eu. CLEAR
- DNS for this domain is served by dns-parking.com, across 2 name servers. NOTED
- The registration is paid up to 2026-09-13. NOTED
- The earliest public archive of this site is from 2021-09-17. CLEAR
- It is hosted on AS-HOSTINGER, from a server in UA. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about cprofsv.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
