Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2003.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

This website presents Blocksy, a freemium WordPress theme designed for visually building websites, with Gutenberg and WooCommerce support, page-builder compatibility, starter sites, documentation, customer support, and premium upgrades.

Scam/Impersonation Risk

No contradictions, phishing indicators, impersonation signals, or confirmed malicious reputation findings were observed. The homepage presents a coherent software product with pricing, documentation, support, testimonials, and a standard newsletter form; it does not exhibit sensitive-data harvesting, deceptive financial claims, or wallet-related behavior.

EVIDENCE

- Homepage: product features, pricing, documentation, support, testimonials, and premium upgrades are presented coherently.
- Homepage form analysis: one newsletter subscription form was observed, with no sensitive fields or untrusted destination.
- Reputation checks: no malicious or suspicious detections, blacklist hit, or abuse reports were recorded.

Regulatory Verification Notes

The available homepage and navigation content describes a conventional software-theme business supported by free adoption, premium features, extensions, support, affiliate activity, and newsletters. No regulatory licence or licence number is claimed; for this type of software offering, that is a limited transparency note rather than an adverse legitimacy finding. Registration privacy is an administrative detail, while the domain's age, continuity, clean reputation, and established traffic footprint support its identity as an established entity.

EVIDENCE

- Domain registration: created 2004-09-22; approximately 21.87 years old; registrar GoDaddy.com, LLC.
- Web archive: 31 snapshots spanning 2003–2018, covering 16 tracked years.
- Hosting: served from AS13335 (Cloudflare).
- TLS: certificate issued by WE1, domain-validated (DV), valid to 2026-09-06 01:47 UTC.

What to Verify Next

Before a premium purchase, procurement teams should reconcile pricing, renewal, refund, and contractual terms with the applicable purchase workflow. Documentation and support channels should be confirmed as the intended routes for account assistance and service escalation.

EVIDENCE

- Pricing page: use the published upgrade and purchase flow to confirm commercial terms.
- Documentation and support pages: confirm product-support and escalation procedures.

Summary Verdict

The overall posture is high-trust and established, with no observed scam, impersonation, phishing, or contradictory signals. Normal interaction, including account login and standard use, is appropriate.

Infrastructure Integrity

Cloudflare CDN/WAF protection places observed traffic behind edge infrastructure rather than exposing the origin directly. This reduces direct infrastructure exposure and is a mitigating security factor, though it is not by itself proof of legitimacy.

Closing Assessment

Normal use is appropriate, with ordinary procurement review applied before committing to paid services.

Written analysis generated 2026-08-03 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	73/100
Identity verification confidence	37%

- Trusted social count=1

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of creativethemes.com.

- The request stayed on creativethemes.com. It was not redirected to another domain. CLEAR
- Registration is published under GoDaddy.com, LLC. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The registration is paid up to 2026-09-22. NOTED
- The earliest public archive of this site is from 2003-07-23. CLEAR

- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about creativethemes.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
