## Key findings

---

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2013.
- No flags from the reputation services TrustSniffer consulted at assessment time.

## Full analysis

---

### Overview

Crédit du Maroc is an established Moroccan banking and insurance website serving individuals, professionals, businesses, corporate clients, and private-banking customers through account services, financing, savings, insurance, online banking, and customer support.

### Scam/Impersonation Risk

No phishing, impersonation, blacklist, malicious-content, or identity-contradiction signals were observed. The site's banking presentation, legal and privacy content, established historical continuity, and clean external reputation converge on an authentic institutional website rather than a deceptive replica.

- The homepage identifies Crédit du Maroc and presents banking and insurance services for personal, professional, corporate, and private-banking customers.
- Historical records show 279 archive snapshots from 2013-05-23 through 2026-07-28, covering 14 years.
- External reputation checks recorded zero malicious detections, zero suspicious detections, and zero abuse reports.

### Regulatory Verification Notes

The legal, privacy, compliance, and corporate-information areas support a mature financial-services presence. The supplied page evidence does not display a specific license number or regulator reference; this is a limited disclosure point for independent confirmation, not evidence of fraud. The published contact and personal-data workflow is consistent with the site's stated banking operations.

- The homepage provides links for legal information, privacy information, support, corporate communication, and compliance-related content.
- The business model presented on the site covers retail, professional, corporate, lending, savings, insurance, and private-banking services.
- The domain record identifies ITISSALAT AL-MAGHRIB as registrar, with registration in 2017 and an age of approximately 8.9 years.
- The site is hosted on AS6713, Office National des Postes et Telecommunications ONPT (Maroc Telecom) / IAM; its TLS certificate is DigiCert Global G2 TLS RSA SHA256 2020 CA1, OV-validated for CREDIT DU MAROC (STE) SA and valid through 2027-02-21.

What to Verify Next

For formal onboarding or regulated financial activity, confirm the institution's current authorization and permitted activities through the applicable Moroccan financial registry, and independently confirm official support channels using contact details published through an established offline or institutional source.

- The homepage provides account-opening, online-banking, financing, savings, insurance, and support pathways.
- The legal and corporate-information pages provide the appropriate locations for confirming institutional disclosures.
- The account-access and personal-data workflow should be matched to the institution's independently confirmed official channels.

Summary Verdict

The website presents a legitimate, established, and trustworthy institutional profile with no observed contradiction or impersonation signal. Normal interaction, including account login and standard use, is appropriate.

Infrastructure Integrity

The site resolves directly to a single Moroccan hosting address operated by Office National des Postes et Telecommunications ONPT (Maroc Telecom) / IAM, without a detected CDN or WAF layer. Its valid organization-validated DigiCert certificate provides a meaningful transport-integrity control, while the hosting arrangement itself should be treated as infrastructure context rather than proof of legitimacy.

Closing Assessment

Normal banking interaction is appropriate, with standard institutional and transaction controls applied to material financial activity.

Written analysis generated 2026-08-01 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

|                                  |            |
|----------------------------------|------------|
| Status                           | UNVERIFIED |
| Identity score                   | 30/100     |
| Identity verification confidence | 50%        |

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of creditdumaroc.ma.

- The request stayed on creditdumaroc.ma. It was not redirected to another domain. [CLEAR](#)

- Registration is published under ITISSALAT AL-MAGHRIB. CLEAR
- DNS for this domain is served by co.ma, across 3 name servers. NOTED
- The registration is paid up to 2026-09-08. NOTED
- The earliest public archive of this site is from 2013-05-23. CLEAR
- It is hosted on Office National des Postes et Telecommunications ONPT (Maroc Telecom) / IAM, from a server in MA. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about creditdumaroc.ma at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
