Full analysis

Overview

Crédito Real is an established Brazilian real-estate marketplace presenting residential, commercial, rural, and premium properties for sale and rent, together with condominium administration, maintenance, documentation, franchising, agency services, and customer support.

Scam/Impersonation Risk

No contradictions were observed. The site's detailed marketplace content, property listings, agency information, and service structure align with a conventional real-estate business model; no phishing, impersonation, deceptive investment, or malicious behavior indicators were identified. The historical record is consistent with an established online presence, and external reputation checks found no confirmed malicious classification.

- The homepage presents property listings, agency services, condominium administration, maintenance, documentation, and franchising.
- The domain was registered on 1998-12-04 and is 27.68 years old.
- The archive contains 581 snapshots spanning 1999–2026, covering 28 tracked years.
- External checks recorded 0 malicious and 0 suspicious detections, with no blacklist or phishing hit.

Regulatory Verification Notes

The site presents corporate details, policies, agencies, and customer-service information appropriate to its brokerage and property-services model. No licensing authority or registration number is identified in the supplied page analysis; this is a transparency item for regulatory verification, not evidence of deception or identity conflict. The available reputational context does not identify a broker match.

- The homepage identifies Crédito Real as a real-estate marketplace serving multiple Brazilian regions.
- The site's hosting infrastructure is served from AS16509, Amazon.com, Inc., US.
- TLS is issued by YR1 at DV validation level and is valid through 2026-08-31.
- The supplied broker-reputation dataset recorded no match.

What to Verify Next

For transactions involving brokerage, rental, condominium, or franchising services, the prospective counterparty should confirm the applicable agency or professional credentials through the relevant Brazilian registry and independently validate payment and contact details before execution.

- The site provides agency and customer-service pathways that can be cross-checked through an independent offline channel.
- Property-specific transaction details should be matched against the corresponding listing and formal documentation.
- Any required licensing or professional registration should be confirmed with the relevant authority.

Summary Verdict

The website presents a legitimate, established, and trustworthy business presence with a low-risk operational profile. Normal interaction, including account login and standard use, is appropriate.

Infrastructure Integrity

The site benefits from CDN/WAF protection and resolves through Amazon infrastructure, with the observed edge address associated with AS16509. This protective architecture reduces direct exposure of the service environment and is a mitigating security factor, though it is not independently proof of legitimacy.

Closing Assessment

Standard use is appropriate, with transaction-specific checks applied in line with normal real-estate due diligence.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about creditoreal.com.br at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
