

Is crocodilepaintbooth.com legit? TrustSniffer's high-trust assessment: 100/100

crocodilepaintbooth.com

Verdict

100

OUT OF 100

HIGH TRUST

crocodilepaintbooth.com appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 50%.

What this site appears to be

Crocodile Industries is an India-based manufacturer of paint booths for industrial, aerospace, furniture and defense sectors. The site provides product descriptions, certifications, contact details and company information for B2B customers.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2012.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Crocodile Industries is a corporate B2B manufacturing website presenting paint-booth solutions, company information, certifications, product categories, and contact options for industrial customers, with an apparent business model based on product sales, custom manufacturing, installation, and after-sales service.

Scam/Impersonation Risk

No scam, phishing, impersonation, or conflicting-identity indicators were observed. The site presents a coherent corporate-manufacturer profile covering industrial, aerospace, furniture, and defense paint booths, rather than a high-risk financial, investment, or credential-harvesting service. Its pages contain no login or sensitive-input forms, and observed browser behavior showed no wallet connection, clipboard manipulation, hidden form, cloaking, or suspicious script activity. The available evidence is therefore consistent with an established, apparently legitimate website, although the real-world operator identity is not independently verified.

EVIDENCE

- The homepage identifies Crocodile Industries and presents industrial, aerospace, furniture, and defense paint-booth products for business customers.
- The homepage and contact page contain business contact details and a quotation pathway, with no login or sensitive-data form detected.
- The domain was registered in 2012 and is approximately 14.56 years old; historical records span 2012-09-03 to 2025-07-11, covering 14 tracked years.
- Evaluated external reputation checks recorded 0 malicious detections, 0 suspicious detections, and 0 abuse reports; coverage was partial.

Regulatory Verification Notes

The About, product, and contact content describes a manufacturing business and refers to certifications, but the available pages do not identify a regulatory license, registration number, or licensing authority. That is a transparency item for ordinary business verification, not evidence of a scam in the absence of contradictory signals. The site's apparent business identity is supported by consistent corporate content and a long-running domain, while private domain registration remains an administrative detail and does not independently establish the operator's legal identity. The site should therefore be regarded as apparently legitimate rather than as having a proven real-world operator identity.

EVIDENCE

- The About and homepage content describes more than 20 years of paint-booth manufacturing experience and identifies India as the business market or base.
- The product pages present manufacturing capabilities for industrial, aerospace, furniture, and defense applications and refer to certifications.
- The domain registrar is GoDaddy.com, LLC; the recorded creation date is 2012-01-31T15:53:13Z and the expiration date is 2036-01-31T15:53:13Z.
- The site is served from AS47583 (AS-HOSTINGER - Hostinger International Limited, CY), with hosting resolved in Lithuania; its TLS certificate is issued by YE2 at DV validation level and is valid to 2026-10-03T23:01:00+00:00.

What to Verify Next

Before entering into a substantial B2B engagement, an independent check should confirm the company's legal registration, any approvals applicable to the proposed installation, the scope of the stated certifications, warranty and after-sales obligations, and the payment protections attached to the contract. Contact details should also be corroborated through an independent business source or an offline channel before credentials or payment information are exchanged.

EVIDENCE

- The homepage offers a “get a quote” pathway rather than an automated consumer checkout.
- The site includes dedicated About, product, gallery, and Contact Us sections, providing a basis for matching the proposed supplier and equipment to independent records.
- The available content describes installations and after-sales service as part of the business model, making contractual confirmation of those obligations material to procurement review.

Summary Verdict

Available evidence is consistent with an established, apparently legitimate corporate website and supports a high-trust, low-risk posture. No contradictions were observed, but the available evidence does not independently verify the real-world operator identity; the site should consequently be treated as credible in presentation and technical behavior without treating its identity claims as proven.

Infrastructure Integrity

The site resolves to Hostinger infrastructure associated with AS47583 and appears to expose direct hosting addresses rather than a detected CDN edge layer. This is a conventional hosting arrangement and provides a mitigating operational signal, but hosting infrastructure alone is not proof of legitimacy.

Closing Assessment

Normal browsing is proportionate to the assessment; credential or payment interactions should follow routine independent merchant-identity, contractual, return or warranty, and payment-protection checks.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	80/100
Identity verification confidence	40%

- Trusted social count=4

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of crocodilepaintbooth.com.

- The request stayed on crocodilepaintbooth.com. It was not redirected to another domain. CLEAR
- Registration is published under GoDaddy.com, LLC. CLEAR
- DNS for this domain is served by dns-parking.com, across 2 name servers. NOTED
- The registration is paid up to 2036-01-31. CLEAR

- The earliest public archive of this site is from 2012-09-03. CLEAR
- It is hosted on AS-HOSTINGER, from a server in LT. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about crocodilepaintbooth.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
