- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2017.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Cryptocurrency Jobs is a specialized employment marketplace connecting employers and candidates across blockchain, cryptocurrency, DeFi, and Web3, offering searchable listings, employer postings, job alerts, newsletters, and career tools.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents a coherent job-board purpose, including employer recruitment, job search, career categories, and talent services, with no phishing indicators, deceptive financial solicitation, or suspected brand impersonation. The site's established history and clean external reputation further support continuity rather than impersonation.

- The homepage identifies the service as a blockchain and cryptocurrency employment marketplace and offers "Post a job" and "Find a job" functions.
- The site has 262 archive snapshots spanning 2017-11-02 through 2026-05-28, covering 10 years of tracked activity.
- The domain was registered in 2017 and is approximately 8.81 years old.
- External checks recorded zero malicious and zero suspicious detections, with no blacklist or phishing result.

Regulatory Verification Notes

The site operates as an employment marketplace rather than presenting itself as a regulated financial intermediary. No financial license or registration number is presented in the supplied content; this is a transparency item for scope clarification, not evidence of fraud or identity contradiction. Registration privacy is an administrative detail, while the site's long operating history, identifiable registrar, and consistent employment focus support its established identity.

- The homepage and service navigation describe employment, recruiting, job alerts, resume tools, and employer pricing rather than regulated investment services.
- The domain is registered through NAMECHEAP INC, with an expiration date of 2027-10-10.
- The site is served from AS13335 (Cloudflare, Inc., US).
- TLS is issued by YE1 at DV validation level and is valid through 2026-10-15.

What to Verify Next

- Prospective employers should independently confirm the identity and hiring process of any individual organization behind a job listing before sharing sensitive employment or identity documents. Where a role involves regulated financial activity, the relevant employer’s licensing and corporate registration should be checked directly with the applicable official registry.
- The homepage provides employer-facing posting services and searchable listings across roles, locations, employment types, and blockchain categories.
 - The site provides About, Press, Partners, Testimonials, Contact Us, and Pricing navigation for independent organizational review.
 - The site offers job alerts, newsletters, resume-building, and talent-collective features that should be matched to the intended employment workflow.

Summary Verdict

The website presents as a legitimate, established, and trustworthy employment marketplace with a clear business purpose and no observed scam, phishing, or impersonation indicators. Normal interaction, including account login and standard use, is appropriate.

Infrastructure Integrity

Cloudflare CDN/WAF protection fronts the site, and all observed addresses were CDN edge servers rather than exposed origin candidates. This reduces direct origin exposure and provides a meaningful protective infrastructure layer, while remaining a mitigating control rather than proof of legitimacy.

Closing Assessment

Normal browsing, account use, job-search activity, and employer-platform interaction are appropriate, with ordinary verification of specific employers and roles before exchanging sensitive documents.

Written analysis generated 2026-08-02 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	73/100
Identity verification confidence	37%

- Trusted social count=1

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of cryptocurrencyjobs.co.

- The request stayed on cryptocurrencyjobs.co. It was not redirected to another domain. CLEAR

- Registration is published under NAMECHEAP INC. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The registration is paid up to 2027-10-10. CLEAR
- The earliest public archive of this site is from 2017-11-02. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about cryptocurrencyjobs.co at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
