

Is crzxjx.com a scam? TrustSniffer's high-risk assessment: 5/100

crzxjx.com

Verdict

5

OUT OF 100

CRITICAL RISK

crzxjx.com shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 70%.

What this site appears to be

Regional Chinese-language news portal covering local and national political news, tourism, culture and multimedia content. Page contains navigation, article lists, and many links to related local sites and partners.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

At a glance

The page as captured

<https://crzxjx.com/>

What crzxjx.com served when TrustSniffer captured it on 2026-08-20. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2013.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Overview

The website presents itself as a Chinese-language regional news portal covering local and national politics, tourism, culture, public affairs, live broadcasts, and multimedia content, with an apparent informational and advertising-supported business model. Its homepage content is editorial in form, but the page title includes gambling-oriented terms such as “365bet” and “Best365,” creating a material mismatch between the apparent portal function and the domain’s presentation.

Scam/Impersonation Risk

The site carries a confirmed blacklist finding: a major browser-safety service reported a malicious match, and a separate external blacklist also flagged the domain. This is a direct contradiction to the otherwise benign news-portal presentation and supports a clearly cautionary posture for sensitive interactions. No login form, sensitive form, wallet functionality, or explicit page-level phishing mechanism was observed, and no specific brand impersonation was identified; those observations do not offset the external threat detections. The gambling-oriented title elements further weaken confidence in the integrity or continuity of the homepage’s stated editorial purpose.

EVIDENCE

- The homepage title contains “365bet” and “Best365” terminology despite the page presenting regional news and public-affairs content.
- External reputation telemetry records a malicious match from a major browser-safety service and a separate blacklist flag for the domain.
- The web archive records 227 snapshots spanning 2013-08-26 to 2026-02-26, with 14 years tracked; this establishes historical presence but does not neutralize the current blacklist findings.

Regulatory Verification Notes

The reviewed content does not independently establish the real-world operator behind the site. The homepage uses wording equivalent to “the official news portal” for a regional administrative area, but that institutional claim is not, by itself, proof of affiliation or authorization. No license, licensing authority, registration number, or comparable legal disclosure is presented in the available site content. The domain’s registration and transport security are technically established, but those facts do not validate the publisher’s identity or institutional claims.

EVIDENCE

- Domain registration records show registration on 2018-06-27, approximately 8.15 years old, through NameSilo, LLC.
- The site is hosted on AS398823, PEG-LA - PEG TECH INC, US.
- The site’s TLS certificate was issued by YR2 at DV validation level and is valid to 2026-11-15.
- The homepage presents an official-portal claim without accompanying operator, licensing, or authorization particulars in the reviewed content.

What to Verify Next

Independent confirmation should be obtained from the relevant regional government or media-registration authority before treating the site as an official publication. Any proposed account, credential, payment, or financial interaction should be deferred unless the operator and official contact channels are confirmed through an independently sourced route rather than through the website itself. Passive viewing should remain the maximum engagement level pending resolution of the external safety findings.

EVIDENCE

- The observed homepage contains no login form or sensitive form.
- Browser-behavior telemetry recorded two external POST requests, both classified as non-whitelisted, while recording no external XHR requests or wallet activity.

Summary Verdict

The overall posture is **critical and cautionary**, with a material sensitive-interaction risk. The site’s editorial appearance and historical continuity are insufficient to establish legitimacy because the domain is subject to confirmed external threat detections and the real-world operator remains unverified.

Infrastructure Integrity

The domain resolves directly to a single hosting address operated by PEG-LA - PEG TECH INC, with no detected CDN or WAF layer and no separate edge-IP posture. This provides limited infrastructure-based mitigation and should not be interpreted as evidence of legitimacy.

Closing Assessment

Engagement should be restricted to passive viewing, with credentials, payments, and financial activity withheld unless independent verification produces a materially different assessment.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, behaviour in a sandbox, external reputation.

- 01 Governance Risk

 - Registration details are held behind a privacy service, so no operator is named publicly. This is common and legal, and it also means there is nobody to check.
Registration and ownership rule:KF_WHOIS_PRIVATE
 - The registration record withholds contact details for the operator.
Registration and ownership rule:KF_WHOIS_HIDDEN
- 02 Sensitive Interaction Risk

 - The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
 - The page sent data to a destination TrustSniffer does not recognise.
Behaviour in a sandbox rule:BEHAV_NONWHITELISTED_POSTS
 - An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of crzxjx.com.

- The request stayed on crzxjx.com. It was not redirected to another domain. CLEAR
- Registration is published under NameSilo, LLC. CLEAR
- DNS for this domain is served by dnsowl.com, across 3 name servers. NOTED
- The registration is paid up to 2027-06-27. NOTED
- The earliest public archive of this site is from 2013-08-26. CLEAR
- It is hosted on PEG-LA, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about crzxjx.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
