

Is cuisinemall.ma legit? TrustSniffer's high-trust assessment: 100/100

cuisinemall.ma

Verdict

100

OUT OF 100

HIGH TRUST

cuisinemall.ma appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-07-31 by automated analysis. Classification confidence 70%.

What this site appears to be

Arabic/French Moroccan ecommerce storefront offering kitchen utensils, cookware, appliances, cleaning products, and seasonal bundles priced in Moroccan dirhams. It promotes free nationwide delivery, cash on delivery, a 30-day return assurance, telephone and WhatsApp support, policy pages, and social-media accounts.

Key findings

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2019.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

The website is an established Moroccan e-commerce storefront that sells kitchenware, cookware, small appliances, cleaning equipment, and seasonal household bundles to domestic consumers through a bilingual Arabic/French catalogue priced in Moroccan dirhams.

Scam/Impersonation Risk

No contradictory, phishing, impersonation, or malicious-content signals were observed. The homepage presents a coherent retail model based on product sales, free nationwide delivery, and cash on delivery; interactive testing found no login form, hidden form, external password submission, clipboard interference, wallet interaction, cloaking, or suspicious inline scripts. Prominent recurring discounts—including reductions advertised as high as 86%—and customer testimonials are commercial claims rather than confirmed fraud indicators, although their accuracy is not independently established by the supplied evidence.

- The domain was registered in 2020 and is approximately 6.58 years old; registration identifies ECOMUS SARL as the owner and ARCANES TECHNOLOGIES as the registrar.
- The web archive contains 98 snapshots from 24 May 2019 through 15 March 2026, spanning 8 tracked years, with no detected suspicious repurposing or semantic drift.
- The homepage displays ordinary merchandise, prices, cart controls, and purchase incentives without credential-harvesting or cryptocurrency functionality.
- External reputation checks recorded zero malicious and zero suspicious detections, no known unsafe-browsing result, no abuse reports, and inclusion within the top one million domains by traffic rank.

Regulatory Verification Notes

The site operates as a conventional consumer-goods retailer rather than a financial or investment service, so the absence of a financial-services licence is not anomalous. Policy links and a 30-day return assurance provide useful consumer-facing disclosures, but the supplied page evidence does not establish whether those materials state complete corporate-registration particulars, a physical trading address, governing-law terms, or the entity responsible for fulfilling orders. No matching broker profile was found in the supplied third-party broker dataset; this is neutral and has no apparent relevance to the stated retail activity.

- The homepage identifies the service as a Moroccan kitchenware and home-appliance store and does not make a regulated financial-services claim.
- The site publishes delivery, return and exchange, and other policy links alongside a stated 30-day return assurance.

- Hosting is served from AS47583 (Hostinger International Limited); the site’s DV TLS certificate was issued by YE1 and is valid until 23 October 2026.
- The homepage links to established social platforms, including Facebook, YouTube, TikTok, and Instagram.

What to Verify Next

For material orders, the purchaser may confirm that the checkout invoice identifies ECOMUS SARL, review the published return conditions for deadlines and return-cost allocation, and retain the order confirmation and delivery record. The official telephone, WhatsApp, and social channels may also be cross-checked for consistent branding and order-support details before relying on them for post-sale assistance.

- The domain-registration record names ECOMUS SARL, providing a concrete entity against which invoice details can be compared.
- The storefront advertises telephone and WhatsApp assistance, giving purchasers channels through which fulfilment and return procedures can be confirmed.
- The site promotes payment upon delivery, allowing goods and order details to be checked within the constraints of the courier’s delivery process.

Summary Verdict

The website is legitimate, established, and trustworthy, with no observed contradictions undermining its identity or stated retail purpose. The convergence of durable provenance, coherent commercial content, stable technical behaviour, and clean external reputation supports normal interaction, including account login and standard purchases.

Infrastructure Integrity

The site uses direct hosting rather than a detected CDN or WAF, with four likely origin addresses observable in the supplied infrastructure data. This is a conventional deployment posture; transport encryption is valid, and no confirmed infrastructure-abuse pattern was identified.

Closing Assessment

Prospective customers may use the site normally, applying ordinary e-commerce precautions such as reviewing order terms and retaining transaction documentation.

Written analysis generated 2026-07-31 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	79/100
Identity verification confidence	78%

- Trusted social count=3

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of cuisinemall.ma.

- The request stayed on cuisinemall.ma. It was not redirected to another domain. CLEAR
- Registration is published under ARCANES TECHNOLOGIES. CLEAR
- DNS for this domain is served by dns-parking.com, across 2 name servers. NOTED
- The registration is paid up to 2027-01-03. NOTED
- The earliest public archive of this site is from 2019-05-24. CLEAR
- It is hosted on AS-HOSTINGER, from a server in UA. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about cuisinemall.ma at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
