

Is customboxesbulk.com safe? TrustSniffer's moderate-trust assessment: 70/100

customboxesbulk.com

Verdict

70

OUT OF 100

MODERATE TRUST

customboxesbulk.com is moderately trusted.

Most signals looked ordinary, and some evidence was missing. Read the checks below before you pay or hand over personal details.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 50%.

What this site appears to be

Company site offering custom printed boxes and packaging in bulk with product categories, FAQs, testimonials and an account login. Primary activity is selling physical packaging products and design services.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2021.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

CustomBoxesBulk is an ecommerce website offering custom-printed boxes and wholesale packaging products for businesses, with industry-specific product categories, design services, quotations, ordering, customer accounts, FAQs, testimonials, and standard payment options.

Scam/Impersonation Risk

No contradictions were observed across the available evidence: there were no phishing, impersonation, blacklist, or malicious-content indicators. The site presents a conventional packaging-supplier model rather than an investment, cryptocurrency, or other inherently high-risk proposition. Its login and quotation/checkout functions create ordinary account and payment considerations, but observed behavior showed no hidden forms, external password submissions, wallet activity, cloaking, clipboard manipulation, or suspicious scripts.

EVIDENCE

- The homepage and product content describe custom printed packaging, bulk boxes, templates, FAQs, testimonials, and account functionality; no fraud red flags were identified.
- Behavioral testing recorded two successful runs with stable HTTP responses, no hidden forms, zero external password forms, zero wallet-provider or wallet-drainer activity, and no cloaking.
- The domain was registered on 2021-02-17 and is 5.51 years old.
- Historical records show 97 archive snapshots spanning 2021–2026, with 6 years tracked.

Regulatory Verification Notes

The apparent business activity is ordinary wholesale ecommerce involving physical packaging and optional design services. The available material does not independently verify the real-world operator, and the provided site snapshot does not clearly establish corporate identity, registered business details, or a licensing basis. For this type of merchant, licensing may not ordinarily be required, but the absence of clear legal and business disclosures remains a transparency point for commercial onboarding. The available third-party reputational context produced no matched broker record, and no adverse reputation signal was identified.

EVIDENCE

- The homepage identifies the business model through product categories such as cosmetic, pharmaceutical, food, retail, apparel, gift, and custom printed boxes, but the supplied content does not show a clearly verifiable legal entity or registration number.
- Domain registration is through Dynadot Inc; the domain creation date is 2021-02-17 and the expiration date is 2028-02-17.
- The site is served from AS13335, CLOUDFLARENET – Cloudflare, Inc., US.
- The transport certificate is issued by WE1, uses DV validation, and is valid to 2026-09-20T17:49:36+00:00.

What to Verify Next

Before a substantial commercial order or sensitive account interaction, the prospective counterparty should confirm the seller's legal name, physical business address, invoicing details, return and order-cancellation terms, and applicable consumer or commercial protections through independently obtained contact channels. Payment should use a method offering appropriate dispute or chargeback protection, and a small test transaction or sample order should precede a large bulk commitment. Any claimed business registration or sector-specific authorization should be checked against the relevant official registry where applicable.

EVIDENCE

- The site contains login, quotation/request, and checkout or payment-placeholder forms, making account and payment controls relevant to onboarding.
- The site provides product pages, FAQs, testimonials, and order-policy content, which can be compared against the formal terms and commercial documents supplied during procurement.
- The available page analysis found no visible structured business metadata or clear legal badges in the captured content.

Summary Verdict

The website presents a **moderate-trust posture** consistent with a functioning, conventional ecommerce supplier and no observed scam or impersonation contradiction. Its legitimacy is apparent from the coherent commercial content and stable technical behavior, but the real-world operator remains unverified and sensitive interactions should therefore receive proportionate verification.

Infrastructure Integrity

Cloudflare CDN/WAF protection is present, and all observed addresses were CDN edge addresses rather than identified origin infrastructure; this reduces direct exposure of the hosting environment but is only a mitigating security control, not proof of the operator’s legitimacy. The observed infrastructure is associated with AS13335 and Cloudflare, Inc.

Closing Assessment

Routine browsing and initial low-value commercial engagement may proceed with normal business controls, while substantial payments, bulk orders, or sensitive account actions should follow independent counterparty verification and payment-protection checks.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

1 finding contributed to this verdict, raised by registration and ownership.

01 Governance Risk

- The public registration record for this domain is incomplete.
Registration and ownership rule:KF_WHOIS_INCOMPLETE

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of customboxesbulk.com.

- The request stayed on customboxesbulk.com. It was not redirected to another domain. CLEAR
- Registration is published under Dynadot Inc. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The registration is paid up to 2028-02-17. CLEAR
- The earliest public archive of this site is from 2021-03-18. CLEAR

- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about customboxesbulk.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
