Key findings

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

CVbankas.lt is an established Lithuanian employment marketplace presenting thousands of job vacancies, salary information, locations, employer names, search filters, and account access for job seekers and employers.

Scam/Impersonation Risk

No phishing, impersonation, blacklist, or other contradictory signals were observed. The homepage presents a coherent employment-marketplace function, with substantial vacancy content and ordinary search and login workflows rather than deceptive financial or credential-harvesting behavior. The domain's established registration history and clean external reputation further support the conclusion that the site is legitimate.

- The homepage identifies the service as a job portal and displays 8,496 vacancies with location and employment filters.
- The site's login form has no detected hidden form or untrusted destination.
- The domain was registered on 2016-10-03 and is approximately 9.84 years old.
- External reputation checks recorded zero malicious or suspicious detections and zero abuse reports.

Regulatory Verification Notes

CVbankas.lt operates as an employment marketplace, not as a financial or investment service. The available content does not present a financial-services license claim; this is a transparency context rather than evidence of misconduct. Any institutional engagement should therefore focus on ordinary corporate, employment-data, and vendor due diligence rather than financial-regulatory authorization.

- The homepage identifies job listings, recruitment, salary information, and employer services as its principal functions.
- The site links to established social and identity platforms including Facebook, Google, LinkedIn, and Apple.
- Hosted on AS13335 (Cloudflare, Inc.); TLS certificate issued by WE1 at DV validation level, valid to 2026-10-20.
- The site has a global traffic ranking of 22353 and is within the top 1 million websites.

What to Verify Next

For procurement or partnership decisions, confirm the contracting entity and applicable data-processing terms through the site's formal legal materials and an independent business registry. For individual employment decisions, validate the specific employer and vacancy details through an independent employer channel before sharing additional personal information.

- The homepage provides employer names, vacancy locations, salary ranges, and recruitment functionality.
- The site offers account registration and login for job-seeker access.

- The observed business model is an established employment marketplace with no reported content red flags.

Summary Verdict

The site presents a high-confidence legitimate and established online service with a strong overall trust posture. Normal interaction, including account login and standard use, is appropriate.

Infrastructure Integrity

The website is protected by Cloudflare’s CDN and WAF, with observed traffic terminating at Cloudflare edge infrastructure rather than an exposed origin. This provides meaningful mitigation against direct origin exposure while remaining a protective infrastructure signal rather than proof of legitimacy.

Closing Assessment

Normal browsing, account use, and standard employment-platform interactions are appropriate; individual job opportunities should still be assessed on their own merits before consequential employment decisions.

Written analysis generated 2026-08-02 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	76/100
Identity verification confidence	76%

- Trusted social count=2

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of cvbankas.lt.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about cvbankas.lt at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
