Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Daily Dispatch is an established South African regional news publisher focused on Eastern Cape news, opinion, multimedia, business, politics, lifestyle, sport, subscriptions, advertising, and related media-network activities.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents substantial editorial coverage, coherent navigation, social-media links, and ordinary publisher functionality, with no phishing, brand-impersonation, deceptive financial, or malicious-content indicators. The site's long operating history and clean external reputation further support an established identity.

- Domain registration records show registration on 2005-08-13, approximately 20.98 years old, supporting long-term continuity.
- The homepage is identified as a news-publication homepage with no detected phishing indicators, hidden forms, or untrusted destinations.
- External reputation checks recorded zero malicious and zero suspicious detections for the site.

Regulatory Verification Notes

The site's identity is consistent with a regional publisher rather than a regulated financial service. Contact, policy, subscription, advertising, and publisher-information materials provide ordinary organizational context. No financial or professional license is claimed on the reviewed pages; this is a transparency note relevant only if a prospective engagement requires regulated-service authorization. Contextual broker screening produced no match.

- The homepage identifies Daily Dispatch and provides publisher-oriented navigation, including contact, policy, subscription, and advertising pathways.
- The site's transport encryption uses a DV certificate issued by Amazon RSA 2048 M04, valid through 2026-11-09.
- The reviewed publisher materials contain no claim of financial-regulatory licensing.

What to Verify Next

For a commercial or subscription relationship, confirm the publisher identity and payment terms through the site's official contact and policy pages, and independently confirm corporate details where procurement rules require it. Standard account and payment controls remain appropriate for any online subscription.

- The subscription and sign-up pathways provide the relevant basis for reviewing service terms before enrollment.
- Contact and policy pages provide the site-specific channels for confirming publisher details and engagement conditions.

Summary Verdict

Daily Dispatch presents as a legitimate, established, and trustworthy regional news website with a coherent publishing purpose and no observed scam or impersonation contradiction. Normal interaction, including account login and standard use, is appropriate.

Infrastructure Integrity

The site is protected by CDN/WAF infrastructure and is served through Amazon.com, Inc.'s US network, with observed edge addresses in AS16509. This protective architecture is a mitigating infrastructure signal, not independent proof of legitimacy.

Closing Assessment

Prospective users may proceed with normal use while applying routine account-security and subscription-management practices.

Written analysis generated 2026-08-02 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	80/100
Identity verification confidence	80%

- Trusted social count=4

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of dailydispatch.co.za.

- The request stayed on dailydispatch.co.za. It was not redirected to another domain. CLEAR
- Registration is published under Lexsynergy Limited. CLEAR
- DNS for this domain is served by lexsynergy.net, across 3 name servers. NOTED
- The registration is paid up to 2027-08-13. NOTED
- It is hosted on AMAZON-02, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about dailydispatch.co.za at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
